WEST SALEM TO HAVE NEW JAIL

Community Hall may be Included; Other Improvements Planned

WEST SALEM, Feb. 4.—All members were present Monday night at the regular monthly meeting of the city council. A report was given on sewer connections needed in different parts of the city. A system of drainage for the park was discussed, also some bad mudholes in the streets. These problems were turned over to the committee on sanitation for consideration. The street committee reported that some spots had already been mended with gravel.

A fire hydrant at the corner of Third street and Kingwood avenue is to be moved to Sixth street, there being scant equipment in that part of town for combating fires.

A complaint was entered as to livestock running in the streets and this was referred to the city marshal. A complaint was made as to the inadequate lighting on McNary and Sixth streets. L. M. Hill gave a report of water board activities, which included the hiring of a clerk at \$15 per month. A motion carried that water subscribers residing outside the city limits be charged an extra 50 cents per month and that new subscribers be asked to make a \$2 deposit which is to be refunded when the subscriber leaves the city if all bills are paid to date.

A petition with the necessary number of signers was read asking for more street lights on Gerth avenue. This was referred to C. S. Ruge, street commissioner, who was instructed to investigate

the matter and report at the next council meeting.

Plans for a city jail were presented by Councilman G. C. Chapman. As the plans did not include specifications for a city hall or community building, a suggestion was made by Mayor Newgent that the ways and means committee take the matter up with the community club and report at next meeting. The community club has sponsored various money-raising schemes for several years with a view to building a community hall and has quite a substantial sum in its treasury for that purpose.

One hundred persons signed up as members of this league following the talks by these men. This list was representative of Sublimity, West Stayton, Stayton and Aumsville in the southeast part of the county. Each group has their own representative, there being seven in all and L. S. Lambert was elected as representative from this section. In a few days it is hoped to have the whole county organized in this movement.

A cold does 3 things "Pape's" stops them all

A cold always affects you in at least three ways. Air passages are inflamed and irritated. Perspiration is checked. Bowels are clogged with acid wastes from the mucous discharge. So doctors say you must do three things to be rid of a cold.

Pape's Cold Compound does all three! It reduces inflammation and swelling of the mucous membrane; it induces perspiration; opens the bowels. Chew one of these pleasant tablets and see how quickly nasal discharge stops; head clears; breathing becomes easy. See how that aching, feverish, weak feeling disappears. And "Pape's" doesn't stop with killing cold germs. It activates bowels and removes germs and acid wastes from the system. All drug stores—25c. Just remember "Pape's".
