Indication of the heavy hold-over of Oregon enions is found in hand January 1; 1931. A total represent the sons. stock of 6,076,000 bushels is reported in contract with the 6,cent over last year's holdings. These reports represent total holdings of both growers and dealers and consist of onions in both farm and commercial storage. Reports from growers indicate that 65 per cent of the stocks on hand are in the possession of growers while the dealers are holding only 35 per cent.

The estimate of stocks on hand is not an estimate of the amount that will be shipped by rail after January 1. In addition, it includes that part of the commercial crop available on January 1, for which will be lost through shrinkage, spoilage or sorting after that date.

During the past five seasons, carlet movement by rail after per cent of total stocks estimated on hand at that date. Carlot movement during the

month of January, 1931 has amounted to about 3,400 cars, or much less than for the same perod in previous years.
