is so low it is particularly good for the family budget, as well as appetizing. Here is the way:
2 cups chopped cooked meat
2 1/2 cups chopped cold cooked potatoes
pepper
4 tablespoons meat drippings
1/4 cup milk or water
1 egg unbroken
Salt, if needed

Mix all ingredients together, adding salt if needed. Form into 8 or 7 large flat cakes and place on an oiled shallow baking pan or glass platter. Make a deep dent in the center of each one and brush over with melted drippings or butter. Place in broiling oven some distance from flame, having flame very low and broil ten minutes. Remove from oven and drop an egg in the center of each one. Season each with salt, pepper and a bit of butter and place in broiling oven to set egg. This requires 5 to 8 minutes longer.

Never Fail Omelet

Many feminine tears have been shed over attempts to make omelet. No longer is this necessary, those who attended the cooking school were told. To prove it the Never Fail Omelet recipe was given. Here it is:

3 eggs separated
1/2 teaspoon salt
1/2 cup soft stale bread crumbs
3 tablespoons hot water
2 or 3 tablespoons butter
Paprika or pepper
Beat yolks until thick and lemon colored. Four hot water on crumbs and add to egg yolks with seasoning beating mixture until it is fluffy.
Add stiffly beaten egg whites cutting and folding them into the first mixture. Heat the frying pan and butter the sides and bottom. Turn the mixture and spread evenly. Place over a low fire letting it cook through slowly. When puffed and delicate brown underneath place the pan in the broiling or baking oven with the blaze turned very low. When the top is firm to the touch (in about 2 minutes) make a crease at right angles to the handle and fold omelet away from you rather than towards you, as you roll it out on a hot platter. Care should be taken not to touch the top of the omelet with too hot an oven.

Coffee Cake

For those who like a lighter breakfast the Whole Wheat Coffee cake demonstrated on Tuesday will prove acceptable. Here is the way these experts make it:

2 cups pastry flour
1 cup whole wheat flour
2 cups brown sugar
1 teaspoon salt
1 teaspoon cinnamon
1/2 cup shortening
2 teaspoons baking powder
2 eggs
3-4 cups milk
1/2 cup currants if desired

Mix together flour, sugar, salt and cinnamon. Work in shortening with the fingers. Reserve one cup of this mixture for the topping and to the remainder add baking powder, milk and beaten eggs. Mix well, making batter as smooth as possible. Pour into a pan 7 1/2 x 11 x 1 1/2 inches and bake 25 to 40 minutes at 375 degrees. Half butter and half lard may be used for shortening, if desired, and mixture may be baked in two layer cake pan. For variation, nuts and raisins may be added to the batter and a few chopped nuts mixed with the topping.
The next three days will be important ones for the housewives

SILVERTON PUPILS APPLY KNOWLEDGE

SILVERTON, Feb. 17—Should anyone like to know the height of any certain church steeple in Silvertown, or the distance from the ground at which the city siren sounds forth alarms, senior and junior members of Miss Eleanor Schroeder's trigonometry class will be able to tell him or her. Members of this class made a field trip Sunday and measured heights of objects by the use of a surveyor's transit and the application of the tangent rule—that of indirect measurement through the angle of elevation.
This rule, the class learned, was discovered by Thales, 600 years before Christ and was first used by its maker to measure the pyramids in Egypt.
Trigonometry has not been taught in the Silvertown high school for some time but was reinstated this second semester under Miss Schroeder. Enrolled in the class are George Downing, Jesse Arbuckle, Don Burch, Fern Sarge, Fern Geiger, Harriet Campbell, Gerald Foster, Edward Coulter, Raymond Paulson, Harold Irish, and Delbert Otjen.
