

McMAHAN SAYS JURY IS LEGAL

Points out Change in law Providing Continuance Of Secret Tribunal

"The Marion county grand jury which has been sitting since November is as legal a jury as ever worked in this county," Judge L. H. McMahan of the circuit court declared yesterday upon the heels of findings by the district attorney, John Carson, that no orders had been entered continuing the jury from the October to the November term of court.

Judge McMahan declared that section 1410, Oregon laws, on discharge of the grand jury was repealed in 1919, and that it is upon this section that the district attorney apparently bases his assertion of invalidity of the work of the present jury.

The section repealed in 1919 states: "When the business of the grand jury is completed they must be discharged by the court, but whether the same is completed or not, they are discharged by the final adjournment of the court." New Law Makes Continuance Legal

Under this, the jury was automatically discharged at the end of the court term, even if the business is incomplete or the judge fails to enter the discharge order. However, this is changed with the Oregon code, volume 1, section 13-412, reading as follows: "When the business of the grand jury is completed, they must be discharged by the court; but the judge may in his discretion by an order made either in open court or at chambers anywhere in his district and entered in the journal, stating the reasons, continue the grand jury once again in session during as many terms of court as the judge may deem advisable."

Judge McMahan holds that this amended law relative to the discharge of the grand jury means that the jury cannot be discharged even by the judge until the business is completed. When Judge McMahan started the grand jury now sitting in the investigation of the county and state offices, he said the work would probably take a long period, but asked the jury to continue until the work was completed. "The new law was made to provide against just such cases as this, apparently, of letting one jury finish the business started and not completed by a former one," Judge McMahan stated.

NX PURSUIT—an all balsa model that performs like a "Curtis Hawk." It will rise from the ground under its own power, climb perfectly to an altitude of over 200 feet, and then fly level for more than 800 feet. After the power is used up, it will descend in a smooth glide and make a perfect landing. Due to its light weight (1 oz.) it can be made to loop beautifully by adding two extra strands of rubber. It also can be made to return by twisting the rudder.

This model, like all American Junior NX planes, is equipped with balloon-type balsa wheels and flexible reed landing gear. The carved propeller is finely balanced and will not warp nor vibrate. The NX Pursuit is truly a marvelous flying model.

I MET A FRIEND THE OTHER DAY

One I hadn't seen for some time. After the customary greetings I said, "Well, Jack, where have you been all this time?" He answered with a surprised look on his face, "Why," he said, "I've been in the hospital for over a month!"

That Started Me Thinking

Time is passing and we get so busy with our own affairs we sometimes forget that the friends we make and keep are very often of more value and pleasure to us than the dollars we make.

I See The Results Of That

almost every day. In fact, while writing this ad a man came in to see me about getting a little help until he gets a job. Here's his story, not unusual at all, because I hear it almost daily: "While I had money I traded around at different stores. To be truthful, I've been trading at stores that are owned by out-of-town people. I have just come from one of these stores, just now. The manager, while very nice about it, informed me that I was just one of the thousands and he could not help me.

I See My Mistake Now

and I am going to try and get established with some local store where a man is an individual rather than just one of the masses. I'm no deadbeat, but you fellows of course don't know me, and right now I'd give a lot if I was better known."

Just this last week two different women I saw said some of the nicest things about our stores. And while on the bread subject I may as well do a little more bragging on our bakers, they're making about the best loaf of bread I ever saw at any price, even if I do say it myself, and the price is 5c for the 1-lb. loaf and 7c for the 1/2-lb.
