A cold does 3 things "Pape's" stops them all

A cold always affects you in at least three ways. Air passages are inflamed and irritated. Perspiration is checked. Bowels are clogged with acid wastes from the mucous discharge. So doctors say you must do three things to be rid of a cold.
Pape's Cold Compound does all three! It reduces inflammation and swelling of the mucous membrane; it induces perspiration; opens the bowels. Chew one of these pleasant tablets and see how quickly nasal discharge stops; head clears; breathing becomes easy. See how that aching, feverish, weak, feeling disappears. And "Pape's" doesn't stop with killing cold germs. It activates bowels and removes germs and acid wastes from the system. All drug stores—56c. Just remember "Pape's".

Between-meal fatigue is a signal to eat something sweet

Thousands of workers and shoppers overcome fatigue in mid-afternoon by eating a food or drinking a beverage with sugar in it.

It is unwise to endure fatigue. For fatigue may develop into exhaustion, and when the system is in that state, it has virtually no resistance. Colds and other common ills are inevitable.
It is a good idea when you feel fatigued, to stop a moment and eat or drink something sweet. Such foods or beverages are quickly digested—the body is nourished, and the energy in the sugar is ready at once to renew vigor.

Appropriate sweet snacks can be had in soda fountain beverages, ice cream, candy and small cakes. For children coming home from school, sweetened and flavored milk shakes, also bread and butter sprinkled with sugar are recommended. Most foods are more delicious and nourishing with sugar. Letter Claims Perfect Crime In Brooks Case

SAN DIEGO, March 18—(AP)—Two notes, both purporting to be from persons who confessed they killed Virginia Brooks and left her body on Camp Kearney road, tonight were being investigated by police, deputy sheriffs and state officers here trying to solve the murder mystery.
One of these was shoved under a door of a service station near Virginia's university avenue home and was signed "The Doctor." The signers of this note said he had committed the "perfect crime" and had left no clue. The second note was sent by mail to Chief of Police Arthur Hill and though unsigned the writer claimed he had slain the girl. George Sears, lieutenant of detectives, in charge of the Brooks case, said he placed little credence in either letter.

DISTRICTS OPPOSE RULING OF BOARD

Residents of the Englewood and Highland school districts will appear before the school board asking that that body reconsider its decision not to build additions to the grade schools in these districts, considered likely, according to reports.

While residents look no apparent interest when the board met the matter before it on three consecutive meetings, the board's action in turning the building propositions down is said to be arousing the groups. A tentative date for a mass meeting in the Highland district has been set, and the Englewood Community club is scheduled to have the matter before its next meeting.

The school board tabled the building matter indefinitely at the same time appointing the city superintendent and Mrs. Roy Keene to make a thorough and comprehensive survey of the entire school district, looking toward a careful building program for the future.
