At Detroit—Members of the county court and the county commissioner were at Detroit yesterday on matters concerning the new North Santiam highway construction. The suit brought against the county by Wallace Henderson and W. C. Heffner for damages to property on the right of way was primary reason for the visit yesterday. The case will open in the Benton county circuit court next week. The court has made an effort to settle with Henderson and Heffner. However, these cases will not hold up work on the road, as the court has set aside the necessary funds to meet the verdict of the jury.

Answer Filed—A. E. Laflair, one of the defendants in suit brought by T. R. Heffley against the Loraine Timber and Milling company, yesterday filed answer in which he sets forth that Dr. E. Kester and a Mr. Cox of the mill company asked him to sell preferred stock and represented that the company was a going concern. Accordingly, he sold the plaintiff \$2,000 worth of stock. Heffley is seeking to recover the sum expended on stock, which he alleges to be worthless.

DAMAGE SUITS ARE FILED, COURT HERE

Parsons Seeks to Recover From Livesley; Timber Firm is Defendant

Three damages actions and one breach of contract suit were filed in circuit court here yesterday.

A. N. Parsons, hop grower, is seeking to recover from T. A. Livesley company \$1,800, the alleged difference between the price he sold hops for and the price Livesley contracted to buy them for and then repudiated the contract.

Parsons says that in June, 1928, Livesley agreed to purchase 20,000 pounds of hops, the 1929 crop, for 18 cents a pound. The contract was later repudiated by defendant. Parsons says, and when he tendered the hops they were refused. As a result he was forced to sell on the open market at 12 cents, or a total of \$3,600 for the 30,000 pounds, a difference of \$1,800 over the contract price of 18 cents, or \$3,600.

The Silver Falls Timber company is made defendant in two companion suits, seeking \$23,000 damages, filed by Bertha Falk and Amelia Falk. Both suits are based on an accident which happened August 15, 1929, a mile and a quarter from Silverton, when a speeder of the timber company struck an automobile driver by Helen Faulk. Plaintiffs allege that the speeder was operated in careless and reckless manner, and that it was painted green and therefore blended with the vegetation along the track so that it was not noticed as the car approached the track.

Amelia Falk seeks \$10,000 damages for injuries sustained and Bertha Falk seeks a total of \$13,000.

W. H. Lutz filed suit against Armour and company and Tom Kelly for damages totaling \$17,425 as result of an accident last February 18, which occurred three miles north of Jefferson. Plaintiff alleges that the defendant's car was travelling in excess of 45 miles an hour and on the wrong side of the road. Lutz asks \$150 for damages to the car; \$225 damages for loss of use of his injured hand for three months; \$50 for injuries and \$1000 general damages.

QUARANTINE MOVE PUZZLES OFFICIAL

County Fruit Inspector S. H. Van Trump was puzzling yesterday over action of a Washington inspector in refusing to admit 3,000 strawberry plants mailed by a Marion county man on order.

Van Trump inspected the plants here and certified them as he has done on previous shipments accepted in Washington from the same sender.

The inspector says so far as he knows there is no reason for the refusal. The plants were caught in Seattle and fired back here, with word that they were returned in violation of quarantine 17.

Van Trump has no record of such a quarantine, and telephoned Portland to ask the secretary of the state board what it was all about. The official seemed to know no more about it than Mr. Van Trump.

IMPROVEMENTS ARE MADE AT THEATRES

Expenditure of \$25,000 is Contemplated, Capitol and Elsinore Plants

Improvements of extensive proportions and to the amount of about \$25,000 are being installed in both the Warner Brothers' theatres, the Elsinore and the Capitol. Most of the work will be completed this week.

The lighting system under the marquee of both theatres is being changed so that a solid mass of lights will blaze down upon the guests as they enter the theatres at night. There are over 400 additional lights in the marquee of the Elsinore alone.

The Capitol is having a new set of attraction boards placed at the corners on top of the marquee. A new sign is being placed on top of the present Elsinore sign, the effect of which will be visible into the outskirts of the city.

At the Capitol there is also being installed a system of new shutters which will eliminate the elements of glare on the screen and which will provide for additional naturalness in showing technical films. The new shutters will also cut down the fire hazard caused by overheated light striking the screen.

New storage batteries are being installed to increase the amount of light thrown on the screen and there is also being installed "weaver" dowers, which installation will make for perfect transition from one reel of a film to another and the elimination of much noise which is otherwise picked up from the booth.

The Elsinore is having installed a new screen, 22 by 30, to take the place of the present 18 by 22 screen. A new horn is being installed, new high intensity arc lights are being added, new generators and new lenses \$500 for two, are also being added to the equipment.

Plans are also rapidly nearing completion which will give Portland shows to Salem at the same time or immediately following the Portland showing.

NEW SERUM TO BE PUT IN USE

Clinic Will Utilize Toxoid in Immunization Treatment Of Diphtheria

Beginning at the regular Saturday morning clinic today, toxoid will be used in this county for immunization treatment against diphtheria, Dr. Vernon A. Douglas, county health officer, announced yesterday. Toxoid is a new serum, said to be an improvement upon toxin-antitoxin, which has been in use for a number of years.

Toxoid is given in two doses, administered three weeks apart. The new serum, toxoid, is stronger than the one which has been used and gives a larger per cent of immunity. The new serum is often followed by greater reaction than toxin-antitoxin.

With the fewer doses, the new serum also will mean that the county health department will be able to give the immunizations at less expense to the department budget.

Children who are only partly through a toxin-antitoxin treatment will be given this serum, but all new immunizations in the county will be made with toxoid, which some private physicians already have been using.

Outlook Bright For Next Fall's Teaching Jobs

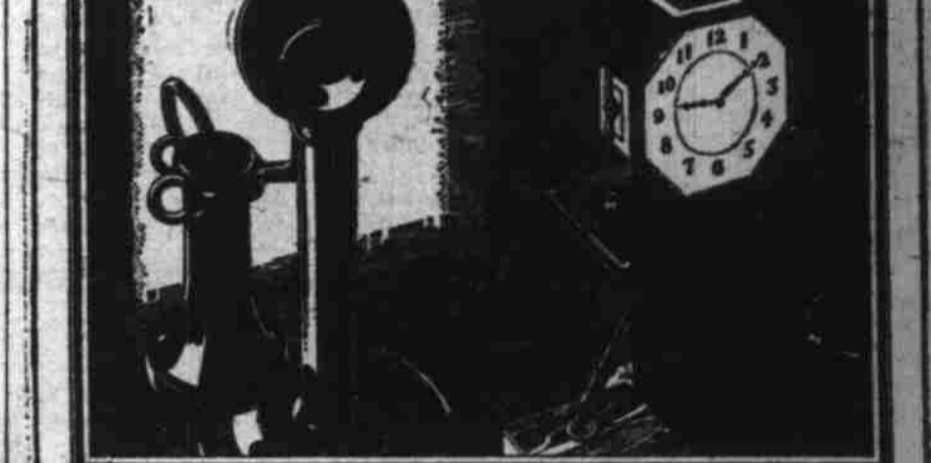

While overproduction of teachers apparently prevails, along with other current surpluses, Willamette university already has received numerous letters regarding teaching positions for its '31 graduates, Dean Frank M. Erickson stated yesterday.

"I am not sure, of course, how continuous these requests will be, but the outlook to date is rather bright for placing a number of our graduates," the dean said. Many of the requests come from former students at Willamette university, now in charge of school systems in Oregon.

Tariffs filed by the Portland Electric company and the Northwestern Electric company providing for new power factor limitations, were suspended by the public utilities commissioner here Friday for a period of 90 days, pending an investigation and hearing.
