## Junior Symphony Orchestra Will Play First Recital Friday Night

A PROGRAM which is being anticipated by a large number of Salem people is that which will be given by the Junior Symphony orchestra Friday night in the armory with Prof. William Wallace Graham conducting and with Ferens Steiner, principal cellist of the Portland Symphony orchestra as the guest artist.

This orchestra will be heard Friday night for the first time since its organization in November under the direction of Prof. Graham. The youth of the city are the ones who have been the principal interest in that it is the aim of this organization to develop a group of youthful musicians in Salem who are trained in the art of playing the symphony instruments. There have been many older musicians placed in the orchestra to develop strength and help lead the way for the younger people.

Prof. Graham came to the work particularly well fitted from the standpoint of experience and much may be expected, although too much must not be expected because of the short length of time which the group has had to work together. Mr. Graham was with the Portland Symphony for seven years, five of which he was second concert master. He conducted the Portland amateur symphony for two years, and has also been conductor of the orchestra and chorus performances of Pacific college. He has also been connected with the Willamette university school of music for several years.

As a background for this work Prof. Graham took orchestra conducting under Joachim Hausman, Max Bruch, and Leopold Wolf. He conducted symphony under Reger and Willy Hseo for eight years in Berlin and also led the Professional Men's symphony of Berlin for three years.
