At the former meeting, authority to prepare an escrow agreement for the transfer of stock was granted by a majority vote of the stockholders but inadvertently authority to transfer the assets of the company was omitted

from the resolution. Wells is includeding proxies with the notices of meeting sent out today and if stockholders of the Oregon Linen Mill company do not wish to attend the April 25 meeting, the proxies made out to James D. The department did not have exact figures on deportable aliens rounded up at those cities. Assistant Secretary Husband said, however, the number for New York probably was more than 1,000.

Two special trains are run across the continent every month or six weeks, the assistant secretary said. One train goes from New York to Seattle carrying any aliens being deported from the east coast to Asia or Oceania and picks up any additional ones immigration bureau inspectors may have along their route.

Returning it brings deportees for Europe from the Pacific coast and cities along the way. At the same time another train starts from San Francisco for New Orleans with persons to be deported through various ports. Some are dropped at Mexican border points and some
