I've flown with the Pathfinders of the Air

—says Chesterfield

yet you meet me in the city's crowded canyons"

Along the invisible lanes of the air, or among jostling thousands in the city's streets... it's all the same to Chesterfield. For here's a cigarette that goes everywhere, and that tastes right anywhere. Milder and better tobaccos — nothing else — that's what you taste in Chesterfield. And, thanks to the "cross-blend," all of that mild, good taste and aroma is retained!

FOR NINETEEN years, our Research Department has kept intimate touch with every new development of Science that could be applied to the manufacture of cigarettes. During this period there has been no development of tested value or importance to the smoker which we have not incorporated into the making of Chesterfield cigarettes.

They Satisfy — that's Why!
