WANTED—USED CARS

WANTED—A used 5 passenger model T Ford. Box 899, % Statesman.

MORE FRESH FRUIT IS BEING UNLOADED

Cars of fresh fruits and vegetables numbering 464 were unloaded at Portland during March, thereby exceeding any of the three preceding months by 125-150 cars. Unloads of the month were still 150 cars less than during March, 1930 and 1929.

Asparagus, carrots, lettuce and mixed vegetables were all received in greater volume this month than in February. This increase is in line with maturity of new spring production in California, and depletion of Oregon's garden-truck production. Orange prices were low and movement was phenomenal, doubling in volume over February, and comprising over 25 per cent of the city's total unloads.

Carlot receipts of white potatoes again represented 20 per cent of Portland's actual consumption, nearby truck-in stuff moving in large volume direct to retailers. Oregon cauliflower moved actively all month. A few Florida and California strawberries were received but demand was poor, due to cool rainy weather. Asparagus prices ruled cheap, 6-9c per lb. to retailers. Local ungraded apple supplies were depleted by the end of March. Local spinach, asparagus and rhubarb were delayed by backward weather.

ECONOMIC SURVEY OF CROPS IS MADE

Several lines of agricultural economic research and service are being carried out by the department of agriculture, as authorized by congress. The bureau is preparing to enlarge the inspection of fruits and vegetables, to increase the grading service on poultry, beans and meats and to establish a market inspection service on canned fruits and vegetables.

The market news service on livestock and meats west of the continental divide will be expanded, also the news service on fruit and vegetables in important producing sections. Provision has been made for additional statistical work in connection with market news on dairy and poultry products, and also in connection with market news on hay, feed and seed.

The appropriations provide for expansion of economic research in farm taxation and farm mortgage finance and for study of trends of prices, production and consumption in the marketing and distribution of farm products.

RECREATION CLASS TO START MONDAY

DALLAS, April 18 — Beginning Monday evening, April 20, in the high school gymnasium, Rickreall, the classes of the recreational training school will get under way.

This school is for the purpose of training leaders in the various communities in recreational features, including games, dances, singing, etc. This will be a working school and spectators are not allowed. The classes will be directed by a representative of the national play ground association.

J. R. Beck who has been handling the enrollment states that he has representatives from granges, woman's clubs, farmers' unions, community clubs and other organizations.

The school begins at 7:30 each evening and lasts until 9:30 and will close Thursday evening.

CHILDREN ENJOY PICNIC

MISSION BOTTOM, April 18.—Among the first picnickers of the season were the children of the Mission Bottom school and their teacher, Miss Thelma Barnett, when they took their lunch and spent the day in the woods near the school last Friday. The time was enjoyably spent playing games and picking wild flowers.

Barrel staves manufactured at Spartanburg, S. C., are used in four foreign countries.
