> FORMER TEACHER VISITS GRAND ISLAND, April 24 -

CLOVERDALE, April 24 - All the buildings, except the house and a chicken house, on the Wil-liam Anderson place southwest of Turner were completely distroyed by fire Tuesday noon. The fire was out of control when first discovered in the barn which held a large quantity of hay. Owing to the strong wind from the north, other buildings close by were in a blaze in an instant. Mr. Anderson barely saved a sedan car.

Help was on the ground immediately but all the time and efforts of the men had to be devoted towards saving the farm house and contents. A house built six months ago and occupied by Mrs. Easter, their daughter and her four children, was burned with all its contents except their canary and bedding from one bed. No clothing of any kind was saved.

A brooder house with 90 chicks,
garage, shed with tools and implements, granary, where a lot of grain was stored, fruit house, wood shed, about 20 cords of wood and a large chicken house were among other buildings destroyed.

The loss is partially covered by insurance.
