## Modern Wives realize importance of breakfast

Breakfast is probably the most important of all meals. Many families eat a hearty breakfast—yes. But all too often they miss getting the important minerals and vitamins which are so necessary to all-round health.

That's why many women now serve Kellogg's WHOLE WHEAT Biscuit every day. They have learned that two of these tempting biscuits with milk or cream supply 10 important mineral salts and 6 vitamins—actually more than a third of the average person's daily requirement.

Crisp double-toasted biscuit made of delicious wheat shreds. Certified for food value. Think of the healthfulness! Calcium and phosphorus for building good teeth. Protein for tissue. Chlorine, iron, copper, vitamins. Order a red-and-green package from your grocer. Notice the certified food-value analysis on the side panel. Made by Kellogg in Battle Creek.
