## FIRST TELEVISION WEDDING IS HELD

Audience on Ether Sees and Hears Ceremonies at New York Church

(Editor's note: This is probably the first news story to be reported by television reception, the writer using a home-assembled receiver located 14 miles from the transmitter.)

By C. E. BUTTERFIELD

Associated Press Radio Editor

NEW YORK, May 1—(AP)—As members of the radio audience, or at least a part of it, listened and looked, they saw Frank Duval and Grayce Jones become man and wife before microphone and photo-electric cell tonight.

They were guests via the ether lanes at the "first television wedding."

In the screen of the television receiver could be seen the principals as the ceremony was performed by Dr. A. Edwin Keigwin, pastor of the West End Presbyterian church and president of the Greater New York federation of churches.

Voices of the participants could be heard too, for the broadcast was in effect a "radio movie" being transmitted by New York's new sound and sight stations WGBS-W2XCR.

The bride, who is a member of the staff of D. E. Repolige, vice president of the West End Presbyterian church of Passaic, N. J., was given away by her mother, Mrs. S. Kappel of Newark, N. J.

Hope Hampton was maid of honor. The bridegroom is an engineer of the Jenkins Co. The romance began in television laboratory.

Seated at a television receiver 14 miles from the transmitter, and with a sound set close by "televisioners" could make out the action easily in spite of the handicap of fading.

## BOOKS OF INTEREST TO PARENTS LISTED

Psychology, Care, Feeding and Other Topics are Handled in Works

Attention of parents and especially mothers, who are interested in learning how to manage and feed their children is called to the many books on this subject in the library of the Marion county health department, 434 North High street.

The library includes a number of books published within recent years, on psychology of childhood, child care, feeding and sex education. In addition, a great many pamphlets are also available for distribution for the information they contain about various phases of health and health habits.

Dr. C. C. Dauer, pediatrician with the public health department of the county and who comes in contact with many of the mothers and their children, says in inviting mothers to make free use of the library material: "Many mothers feel that there

is more to raising a child than to provide food and shelter. They are troubled with such problems as obedience, punishment, pesty, capricious appetites and faulty health habits. A great many mothers are at a loss as to the proper procedure in giving information to their children about sex.

"Many parents who cannot avail themselves otherwise of learning how to manage their children can obtain a great deal of help from certain books that have been published within the past decade. In addition to the books in the health department library, the department has prepared a list of such books which can be borrowed from the Salem public library or the Oregon state library."
