## Lausanne to Send 2 Girls To Lausanne

Fate manages events queerly sometimes. For example, if Virginia Sprague, daughter of a New York attorney had not been in Switzerland perfecting her French speaking and writing, she would not be planning to come to Willamette university next September.

According to a letter received by Willamette's registrar, Wednesday, a certain Miss Betty Moffitt of Lausanne, Switzerland, wrote about a year ago inquiring about the local university. She was informed concerning the advantages of Willamette and put on the follow-up list for receiving news of the university.

Weekly copies of the university's Collegian were sent to her. It was through these that Miss Sprague became acquainted with Willamette university. Miss Sprague, from New York, met Miss Moffitt of Lausanne, Switzerland, a friendship arose binding the two together. They put their heads together as girls do, and decided that they were going to enter Willamette next September as room mates.

With the letter that informs the local authorities of this case, came the transcript of high school credits of the girl from New York City. The letter was written by her father.

Two other transcripts of credits came from Japan and a biblical institute in Los Angeles. The former is especially interesting, according to Registrar Tennant because one of the copies is filled out entirely in Japanese. Another transcript was sent written in English.

## SPAULDING TO OFFER BONDS

Issue of \$300,000 Planned To Broaden Activities Of Paper Company

Issuance for public sale of \$300,000 of first mortgage, five-year, 6 1/2 per cent bonds on the Spaulding Pulp & Paper company at Newberg was announced yesterday by Charles K. Spaulding, president of the concern, who said he expected the new issue would be ready for public sale within a month.

"We will use proceeds from the sale for the retiring of outstanding current debts, for additional working capital and to provide additional machinery," Spaulding said. He indicated that the productive capacity of the mill would be increased from 55 tons daily to 75 tons.

Now Operating The mill was now operating steadily 24 hours daily, and that a high quality pulp was being produced. Carl F. Beyer, one-time manager of the Oregon Pulp & Paper company here, is now resident manager of the Newberg concern.

Additional machinery will greatly augment mill production and decrease the unit production cost, Spaulding feels.

In 1929 the property is reported to have made \$3.70 a share on its common stock of which there are 6000 shares with a par value of \$100 each. There are also outstanding 6000 shares of preferred stock of a par value of \$100.00.

"Earnings in 1930 were sufficient to cover all charges except

depreciation," Spaulding said yesterday. "Considering conditions in the pulp market during that period, I feel the company did very well." He stated that more than \$100,000 of the bonds had already been subscribed among stockholders.

## Labor Opposes Ben West For State Printer

Ben Osborne of Portland, secretary of the Oregon Federation of Labor, conferred with Governor Meier Wednesday in connection with reports that a new state printer is to be appointed to succeed H. S. Bosshard.

Osborne said he would oppose the appointment of Ben West of Salem, who was said to be a candidate for the job. West is a printer and at one time served as county assessor here. Bosshard has served as state printer for several years.

**Baughn Brought Before Hayden, Assault Charge**

W. H. Baughn of the Brooks district was brought before Justice Miller Hayden yesterday charged with assault. His trial will be held next week, the district attorney's office being too busy with investigation of the Iverson murder to handle the prosecution now.

Baughn is charged with knocking down Mrs. Charles Mendenhall in a dispute concerning some money held to be due him. Mrs. Mendenhall is said to have been sick before the fight and since the dispute has been confined to her bed. Her husband is the complaining witness in the case. Bail for Baughn was set at \$250 and has been furnished.

**THE CONQUERING HORDE**

## SWEETEN ACID STOMACH THIS PLEASANT WAY

When people experience distress two hours after eating—suffer from heart-burn, gas, indigestion—nine times out of ten it's excess acid that's causing their trouble.

The best way—the quickest way to correct this—is with an alkali. And Phillips' Milk of Magnesia is an alkali, in the harmless, most pleasant and palatable form. It's the form physicians prescribe, which hospitals use; which millions have come to depend upon in over 50 years of steadily increasing use.

A spoonful of Phillips' Milk of Magnesia in a glass of water neutralizes many times the volume in excess acid; and does it at once. In five minutes, the symptoms of excess acid disappear. To know this perfect way is to be through with crude methods forever.

Be sure to get genuine Phillips' Milk of Magnesia. A less perfect product may not act the same. All drug stores have the generous 25c and 50c bottles. Full directions for its many uses are always in the package.
