

SCIO CANNERY NOT TO OPEN

Officers Elected and Business of Organization Transacted

SCIO, May 7.—Directors elected at the annual meeting of stockholders of the Scio Cannery company consisted of Ed Rubesh, J. L. Davenport, H. E. Rothrock and Leo Zeller, Rudolf Wesely, secretary of the company, called the meeting to order and appointed J. F. Kukacka chairman of the meeting.

Officers chosen at the meeting are as follows: J. F. Kukacka, president; Ed Rubesh, secretary; Rudolf Wesely, treasurer and manager.

The report of Rudolf Wesely as to the financial condition of the company was accepted by the meeting. The matter of the notes given by directors some time ago for the Oregon milk company's interest in the Scio cannery was discussed at length after information had been given by Wesely, who traced the ups and downs of the company since the inception of a few years ago. The meeting voted to keep the notes on hand. Wesely explained that the property of the company was subjected for a time to attachment and sale for debts incurred, but that the directors came to the rescue with their personal notes and saved the property for the time being. The company still owes the directors, he added.

It was brought out by Wesely that offers had been received by him to purchase portions of the cannery equipment, machinery, etc., and he indicated that sales may be made if deemed advisable by the new board of directors. Revival and operation of the cannery at this time does not seem probable, it was stated, although co-operation with the Turnidge movement to establish a marketing association in Scio was favored, according to report of the meeting. This feature is said still to be under consideration both by the cannery directors and the Turnidge interests. The meeting empowered the directors to proceed with the payment of outstanding indebtedness against the company in a manner deemed by them as most advisable. It is understood that other meetings will be held in the near future to take up pressing matters, including bills and co-operation with the proposed marketing movement.
