

CITY WINS IN LICENSE CASE

Portland's Regulation of For-Hire Cars Upheld By Supreme Court

The state supreme court, in an opinion written by Justice Campbell, Tuesday affirmed the decree of Judge John H. Stevenson of the Multnomah county circuit court, in a suit brought by Union Service, a corporation, to enjoin the city of Portland and its officials from enforcing an ordinance providing for a quarterly fee of \$10 for the operation of for-hire cars within the municipality. The lower court held for the city.

"The ordinance in question," read the opinion, "is applicable to all persons operating cars in the same class as the plaintiff, and is not arbitrary, confiscatory nor discriminatory and is not unconstitutional."

Justice Campbell held that the ordinance is not solely a revenue measure, but is a regulatory ordinance requiring a fee sufficient to cover the cost of such regulation.

Other opinions handed down by the supreme court Tuesday follow:

Medford National bank vs. R. A. Blanchard, appellant; appeal from Jackson county. Suit to rescind sale of trade acceptance. Opinion by Justice Kelley. Judge H. D. Norton reversed and case remanded.

Otto Leesi, appellant, vs. Yamhill county; appeal from Washington county. Suit for damages. Opinion by Justice Campbell. Judge George B. Bagley affirmed.

SETTING A 700-YEAR PRECEDENT

An important innovation in the history of the Anglican Church has been established through the visit to Jerusalem by the Archbishop of Canterbury. The head of the Church of England is shown accompanied by Bishop McKinnon (left), Anglican Bishop of Jerusalem, and Major Keith Coach (right), Governor of the city, on their way to visit the Holy Sepulchre. This is the first time the head of the Church of England has visited the Holy City since the days of the Crusades.

SMILE AND YOU'LL WIN SAYS PAULINE

Fair Equestrienne Coming With Al Barnes Circus Saturday, May 23

DISCIPLE OF WINNING SMILE

Pauline Belmont, star of the "white tops," member of the Belmont family, and who receives more verses and flowers than many an idol of the footlights, is something of a philosopher. Summed up in a motto her philosophy is:

"Work hard, play hard, and smile, smile, smile. Whoever does this consistently is bound to land on his feet."

Miss Belmont practices what she preaches. She is said to be able to rehearse longer hours than most, is an expert at tennis and polo and through it all she wears a smile that simply won't come off. As for "landing on her feet," she does that even on the fastest of galloping horses. She is the daring lady dainty of the sawdust ring. Her routine on the back of a horse running at top speed, has never been equaled by any other equestrian—man or woman.

Belmont Family Here With Circus

Pauline Belmont, and the entire Belmont family, including "Phil, the Marvel," will be here with the Al G. Barnes circus in Salem, Saturday, May 23. She will be seen in solo numbers. She is the feature of a great galaxy of riders numbering 60 artists. Miss Belmont has surpassed all others in her branch of the profession. She has many accomplishments as a rider. She rarely experiences a fall. This is because she has what circus people term "perfect time."

"I start to spring through the air at just the second or part of a second when the little watch inside me says it's time to go," says she. "That's the only watch we riders have and the only one we ever need. And then I keep right on smiling even when things go wrong. When the face is relaxed in a smile all the rest of the body relaxes, too. And so, you see, I always land on my feet."

The 1931 program of the great combined circus numbers more than 200 men and women artists and a host of remarkable novelties including Equine Ballet composed of forty horses, each mounted by an expert in costume. Another new feature is one which offers the Gretonas, the world's greatest troupe of tight-wire artists performing in unison along the length of the mammoth "big top."

Milk Racketeers Active in Claim

Asserting that his milk truck was being followed and his service to customers interfered with, William Sheridan of the Hazel Dell dairy yesterday declared he would give a hundred dollars for apprehending the person who has been damaging his deliveries.

He brought to The Statesman office two bottles he had left at the home of a customer. The milk contained grass and fly needles, and Sheridan asserted some one had put the stuff into the bottles maliciously with intent to ruin his standing with his customers.

Other complaints Sheridan made were that trailers have sought to get his customers away through price-cutting, etc. He was greatly worked up about it and was seeking cooperation of police in protecting his interest.

Governor Meier Tuesday received assurance from R. E. Close, superintendent of the Anti-Saloon League of Oregon, that there was no foundation for the report that the anti-saloon league is opposed to the state police law and is supporting the proposed referendum.

FORD BRAKES ARE UNUSUALLY EFFECTIVE

Reliability and safety due to simple design and careful construction

ONE OF the first things you will notice when you drive the Ford is the quick, effective action of its four-wheel brakes.

They are unusually safe and reliable because they are mechanical, internal expanding, with all braking surfaces fully enclosed. This prevents mud, water, sand, etc., from getting between the band and drum and interfering with brake action.

Other outstanding features of the Ford are the Triplex shatter-proof glass windshield, four Hou-daille double-acting hydraulic shock absorbers, aluminum pistons, torque-tube drive, more than twenty ball and roller bearings, Rustless Steel, reliability, economy, and long life.

You save when you buy the Ford and you save every mile you drive.
