DISTRICT PICNIC

Silverton to be Host Neighboring Communities

SILVERTON, June 13-The Silverton chamber of commerce will not hold its regular June meeting and dinner Wednesday night as usual. Instead all energles of the chamber are being directed toward the big afternoon and evening district picnic which it is sponsoring in the Coolidge and McClaine park at Silverton on Friday evening. All surrounding community clubs have been invited to attend this.

Mayor L. C. Eastman is chairman of the sports division which will begin promptly at 2 p. m. and consists of races and contests for men and women and children. Among the races are included balloon race, ladies' egg throw-ing contest, ladies' tug-of-war. pie eating contest, string and gum contest, amoking contest and a hog calling contest. A basket supper will be enjoyed followed by a program and dancing at night.

PORTLAND, June 13-(AP) -Practically no changes are reflected in the general butter market here for the weekend. On the produce exchange all cube prices were unchanged. Undergrades are in quite liberal supply.

Generally held prices are shown in the market for eggs. The late advances forced by Manager Dixon of the local co-ops have been upheld for the better quality stuff here. California prices are firmer for the same reason.

At the weekend there was no change in price or sentiment in the live chicken trade. In general the movement is good but reflects on almost general lack of snap. It is a low buyers' market throughout.

Better feeling in the market for country killed calves has at last caused slight betterment in the price. Sales are being made around 10 1-11s lb. for tops.

PRIVATE RAILROAD CARS LOSE CAST

CHICAGO-(AP)-Busy Americans are outgrowing the idea of owning their own private railread cars. Wealthy folk are turning to palatial airplanes, motor cars and yachts for their pleasure trips and utilizing the standard equipment of the railroads for business

The Pullman company, builder and ewner of all the "rolling pal-aces," vouchsafes this information and expresses no regret that such a trend exists.

To fusure privacy, a private car must be either the first passenger car on the train or the last. The position near the engine is not desirable, and when an observation car is carried the latter preempts the position at the far end. So the private car is a sort of white elephant.
