

BUTTER MAKE IS INCREASED

Improvement of Pasturage Responsible; Mixed Butterfat Price

PORTLAND, June 19—(AP)—Increasing make of butter is reported in the local territory as a result of greater supplies of butterfat forced by the improvement in the grass situation. Prices are steady to easy.

Special reports from the country indicate mixed prices on butterfat and especially so in inland empire centers. In the Wallawa country centralizers are paying 2 1/2¢ at the stations for sour cream and 2 3/4¢ for sweet. Most of the supply consists of the former which becomes sour before reaching Portland.

General trading basis in the market for eggs is showing no change here. The local crop is fully maintaining their prices but some outsiders are reporting cutting again.

Entire chicken market is showing a very slow tone locally; the result of too much junk stuff. No 2 live hens, irrespective of weight, are selling around 5¢ lb.

Country Meats Gain
With the exception of beef, which is slow, the general country market is doing better. Veal and hogs as well as lambs are slightly higher priced.

First of the new crop potatoes out of the Kennecott district have been received in Portland by truck. Very good quality and initially priced 3¢ lb. Local new stock is selling 2 1/2¢ to 3¢ for the best sizes.

Fair crop of walla onions in the Walla Walla district is confirmed. The acreage is about the same as a year ago. Carload lots will start rolling just after July 1.

Notes of wholesale trading:
Another shipment of seedless grapes from Imperial valley reported in good condition.

Generally lower prices are being named for string beans. California apricots are strengthening slightly here.

Shipping demand for lettuce is gaining with little stock suitable. Peas are showing a steady call locally and for shipment.

Cherry trade continues congested with poor stuff.

Advance of a dime in sugar goes into effect Saturday morning. Hothouse tomatoes of size and quality finding favorable call.

CHERRY DEAL MAY CLOSE THIS WEEK

The Royal Anne cherry deal in Salem will probably be brought to a close this week due to the fact that mold is appearing on the cracked fruit.

Growers for the most part are sorting the fruit carefully before delivery and loss is reported as very heavy. Black cherries are also badly cracked but will probably last longer than the Royal Anne.

WOODBURN GROUP AT SUMMER STUDY

WOODBURN, June 19—Many Woodburn teachers have left for study in institutions of higher learning for the summer months. Others plan to rest during the summer.

V. D. Bain, superintendent of the Woodburn public schools, left this week for Stanford University at Palo Alto, California, where he will study for a Ph. D. degree. Bain has already completed a course at the University of Oregon for a master's degree.

Mrs. Helen M. Gulas has left for her annual summer study course in home economics at Oregon State college. Ronald Burnett, instructor in the Smith-Hughes agricultural department, is also studying at Corvallis in his line of work.

P. E. Rohner and Gilbert Oddie are also studying at O. S. C. Oddie is taking a coaching course. T. P. Otto will spend part of the summer at the University of Oregon summer session.

One of the grade school teachers, Georgia Albee and Mary Scollard attending normal schools, Miss Albee going to Monmouth and Miss Scollard studying in Ashland. Mrs. Ballard and Mrs. Clark are to attend a summer session at the University of Washington. Mrs. Davenport will study at Willamette university. Lola Newman, who resigned her work in Woodburn, is studying in San Francisco.

HEAT HITS LOW, LATER RALLIES VEGETABLE DEMAND IS IMPROVED

Canada Drouth Relief Is Insufficient, Crop Outlook Same

CHICAGO, June 19—(AP)—Notwithstanding that wheat today established new price records, the market averaged higher after evidence accumulated that drought relief in Canada was deficient. Rains were light where a soaking was most needed, and crop prospects apparently had been but little changed in the main drought sections. There were further unfavorable crop reports from the Dakotas and Montana.

Wheat closed irregular, ranging from 1/4 cent decline to 1/2 advance, corn 1/8-5/8 up, oats at 1/4-3/8 gain.

MAY ARBITRATE MILK PROBLEM

Two of Distributors Claim Readiness to Discuss With Producers

PORTLAND, June 19—(AP)—Demand for peas, lettuce and berries was generally improved during today's trading on the East Side Farmers' market. Offerings in general were not so liberal. As Friday is usually the day of greatest arrivals for the week, the present showing was not so extensive.

Strawberries sold at a range of \$1.35-\$2 crate with both prices extreme. General trading was \$1.50-1.75 crate.

Raspberries sold \$1.40-1.75 generally with some business as low as \$1.25. Loganberries moved \$1.00-1.35 crate with poor stuff only at the low market.

Blackpeas were \$1.50-1.75 crate generally. Peas showed a good call up to 5¢ for Telephone stock and down to 4 1/2¢ for ordinary stock. Most sales peas were 5-5 1/2¢.

Lambish calery hearts ruled \$1.25 doz. bunches with regular quality 75¢-1.00 doz. Lettuce sold 80¢-1.00 with local highest because of, of poor quality. Puget Sound stock not so good.

Spinach market was easier with a general top of 40-45¢ orange box. Carrots sold 20-25¢ with beets mostly 20¢ doz. bunches. Royal Anne cherries were 4-5¢; mostly 4-4 1/2¢. Bins were not plentiful; selling mostly 7¢ lb. Cauliflower again sold \$1.00-1.50 crate with little good stuff in sight.

Green Broccoli at 60¢ box. Curnants sold generally \$1.75 crate.

RAIN REDUCES FIRE HAZARDS

MILL CITY, June 19—A heavy rainfall has thoroughly soaked this section of the Santiam National forest, reducing all fire hazards for some time to a low degree. As a result of the rains, all gardens have shown a surprising growth, pastures are as green as in early spring. While some damage was done to hay, the few cherries grown in this section have not suffered materially, all other crops benefiting so greatly as to far overcome the small loss to cherries and berries.

The North Santiam river rose several inches and was a decided brown in color following the heavy rains of Sunday and Monday, when an electric storm visited this section and was especially heavy in the Detroit region. From the appearance of the river, it is believed a small slide occurred somewhere along its bank. The river had cleared considerably Wednesday.

Dallas Pool is Being Improved
DALLAS, June 19—Improvements are being made at the swimming pool in the Dallas city park, prior to the Red Cross swimming week, which will be from July 27 to August 5, this year.

The platform along the bank on the north side of the pool has been widened and four tiers of bleacher seats will be constructed for comfort of spectators. The walk across the top of the dam has also been widened and the platform on the south side.

A subscription was taken up to pay for the labor and materials were furnished by the Willamette Valley lumber company.

Salem have rented the house of Edgewood street owned and formerly occupied by Mrs. Ethel L. Steward. Mrs. Steward is now in Kalamazoo, Mich., where she expects to remain. The Wells family will move in at once and plan to purchase the property a little later. Mrs. Wells is a sister of J. A. Gosser of Kingwood avenue.
