

# POPE, MUSSOLINI TO CONFER SOON

## Will Determine What Sort Of Clubs Catholics May Organize

ROME, June 24—(AP).—The Pope and Premier Mussolini will convene a sort of diplomatic conference to thrash out their differences over exactly what kind of clubs for laymen the church may have in Italy.

The Vatican first proposed such "conversations" and Italy agreed in a note delivered today to the Holy See by the Italian Ambassador, Count de Vecchi.

This is one of several indications construed as promising, despite the Pope's continued pessimism in his speeches, to which

Italy again objected in today's note.

Even after the note was delivered the Holy Father told a group of pilgrims from Padua that circumstances "do not point toward a return to normal."

"Affairs are not in order," he said. "We have little faith in men, if, indeed, we can have any faith in man, but we have complete, profound and joyous faith in the aid of God and prayer."

Apology Matter Settled, Report

Some progress in the negotiations was seen in reports that the difficult matter of the apology which his Holiness first demanded within 24 hours had been settled. The government note today explained that the promise of persecution of those guilty of insulting the Pope and damaging church possessions implied the violence was "deplorable."

This was understood to be satisfactory to the Vatican, which recently said it would demand only "reassuring words."

Clubs that have been closed

must remain inoperative as Italy takes the view that they "endanger the protection of the concordat by anti-fascist activities."

The Pope already has removed some of the causes of complaint by putting the clubs under the bishops and by shelving their central governing body.

# School District Effects Saving Beneath Budget

The Salem school district saved \$1,703.97 from the budgeted expenses for the school year closed this month, according to figures submitted to the board Tuesday night by W. H. Burghardt, clerk.

Despite this saving, the budget items have not all been covered by tax money, as taxes which came in during the year were \$14,458.68 under the amount which was anticipated.

# ALBANY DEDICATES ITS AIRPORT SOON

## Extensive Program Planned For July 2; Officials Of State Invited

ALBANY, Ore., June 24—(Special).—Prominent men from all over Oregon will take part in the dedication of the Albany airport on July 2 in a program that will be of unusual interest. One of the features of the day will be the visit of the air fleet of 60 planes composing the Pacific Northwest Air Tour.

Invitations are being sent out to Governor Julius Meier, United States Senator Charles L. McNary, Congressman W. C. Hawley, members of the state administration and legislature. The program address will be delivered by one of the state's most prominent men and there will be interesting numbers by Albany talent.

The general program given by the air tour will include the following events:

Arrival of the ships, flying low in formation, followed by inspection of the ships for which 30 minutes will be given. All ships will be placarded to give information as to name, type, speed, weight and details of construction and also the name of the pilot.

Then the air circus will begin with a parachute jump by "Billie" Brown, promoter woman parachute jumper of the world. It is claimed. This will be followed by a stunting exhibition by Marshall Seagrave of Medford in his 250 H. P. Speeding Travelair.

Pin Altitude Race

An altitude race between ships competing to make the quickest time in going to an elevation of

1500 feet, doing a designated stunt and returning to the ground will be pulled off. Stunting by Johnny Blum of Seattle in his tapering wing Waco plane will be next.

A demonstration of new production planes will be given showing how the late model ships have solved problems of safety and efficiency.

Stunting demonstrations will be given next by Gordon Mounts, representative on the Pacific coast of the Fleet Air Craft corporation. Then will follow one of the surprise acts about which no advance information is given but is unusual and novel. A delayed parachute jump will be made by one of the Brown sisters who specialize in this sort of thing.

One of the most interesting events will be the formation flying exhibition including special grouping of planes.

Rankin on Program

The tentative program states at this point that there will be stunting by Tex Rankin and adds "muff sed." Mr. Rankin will be followed by Gladys O'Donnel, in

a racing demonstration showing how a plane is swung around pylons in actual competition. Flot-cene Lowe, known as "Pancho Barnes," will also give demonstrations with her Travelair mystery ship, a copy of the same ship flown by Frank Hawks, holder of most of the world speed records.

Dorothy Heister, Portland girl, who has become famous as a stunt pilot will perform all her feats in the air as another event.

The night program will include fireworks in a demonstration of the most unique character, impossible without the use of a large number of planes.

Following the air circus and fireworks will be the official airport dedication dance which by special arrangements will be held at Tumble Inn dance pavillion located near the airport. All visiting pilots and officials of tour will be guests.

Pecan seedlings in Missalissippi have been made to produce good varieties of nuts by "top-working," or grafting.
