

OREGON PEACH CROP APPEARS

McMinnville Grower Leads Field; Activity on East Side Gains

PORTLAND, June 24—(AP)—There was somewhat improved activity all through general trading on the east side farmers' market today. Volume of offerings was not so liberal but demand was better. First home grown peaches of the season appeared. They were brought in by M. J. Carmichael of McMinnville. Fruit was of the Early Champion variety, of rather fair size, fine color and even better smell. Priced around 75c peaches were in fact the best offering received from any point to date this season. Berries sold more rapidly with strawberries topping at \$2 for fairly good fruit. Raspberries showed a general spread of \$1.25-1.35 crate with quality just fair. Loganberries sold mostly \$1.10-1.15 with a few \$1.35. Blackcaps were \$1.50-1.65 crate with a fair call. Currants sold quickly \$1.65 with a demand for far more than offered.

Cherry Call Better
Bing or Lambert cherries were in greater call than supply around \$6 with Royal Ann holding 4c generally. Lettuce was in active call with sales showing a spread of \$1 to 1.25 crate generally. Peas were in greater call than supply at 5-6c lb. Green beans sold 7-8c; mostly the former. New potatoes continued in call; generally 2 1/2c lb. for best. Cabbage heads 75-90c crate with best local at the top. Cauliflower sales were 75c-81c crate; the latter for 1a. Mid-Columbia cabbages were priced \$1.15-1.25 box. Asparagus held mostly \$1 doz. bunches. Celery sold 75c-1.00 doz. with hearts \$1.25 doz. bunches. All root vegetables were as previously quoted.

FRUITS DEPRESSED BY COOL WEATHER

Cool, cloudy weather continues its depressing effect upon movement of fruits and melons. California cantaloupes show a preponderance of over-ripeness, with skins shaded somewhat, with this class of merchandise. Central California cant season is delayed by cool nights. California peaches, apricots, and plums are moving very slowly, although prices are reasonable. Fine Santa Rosa plums are going being at 90c per lug. Local northwesterners are awaiting arrival of home-grown apricots, withholding their purchases of California cots accordingly. An occasional lot of The Dalles Mayflower peaches is now reaching the market. The early season is reflected in first arrivals of outdoor tomatoes, from Blingen. Kennebec new potatoes are much more popular than Shafter whites, and are commanding a premium of 50c per cwt. or more. First carload of fresh raspberries moved from Graham yesterday. The local berry market declined again today, with reds jobbing at \$1.25-1.50 per crate, while black-caps brought about 25c more. Lettuce prices soared, with virtually no good Oregon stock available. Fair quality Seattle lettuce sold to retailers at \$1.50-1.75 per crate of three dozens, packed dry.

WILL TEACH NEXT YEAR
WALDO HILLS, June 24—Edna May, oldest daughter of Mr. and Mrs. J. W. Goodknecht, was a member of the 1931 graduating class at Monmouth Normal. She is now at the home of her parents where she will spend the summer. Next year she is to teach the Mountain View school in the Stiverton hills.

GUESTS AT LYONS
LYONS, June 24—Mrs. Gertrude Mills and small daughter, Betty Rae of Oakland, California, are guests at the S. D. Brown home. They have spent the past week visiting Oregon friends and will leave for Oakland Wednesday. Mr. and Mrs. Brown drive to Portland to meet Mrs. Mills and daughter.

GUESTS FROM SOUTH
BETHEL, June 24—Mr. and Mrs. John Spranger have as their house guests Mrs. Spranger's brother, Louis Daniels and his wife and family of Anaheim, California. They are remaining in the Bethel district a couple of weeks, and contemplate driving as far north as Seattle before returning to their home.

AMITY, June 24—News was received this morning from the Portland sanitarium that R. R. Massey who underwent an operation June 22 at the above place is doing nicely.

GRAINS GAIN IN SPITE OF SELLING MEDIUM AND LIGHT HENS LOWER

Bouyancy of Stocks is Reason Given on Chicago Mart

CHICAGO, June 24—(AP)—Despite selling ascribed to the Farmers' National Grain corporation, a government sponsored agency, wheat scored 2 1/8 cents a bushel maximum advance today. The gain was largely in response to bouyancy of stocks. Franco's qualified acceptance of President Hoover's moratorium proposal was a contributing bullish factor. Wheat reacted on profit-taking in the final transactions and closed irregular, 1/4c lower to 1 1/4c higher, corn 1/4 5-8c up, oats at 1-2 1/4c advance.

BERRIES DAMAGED

WEST STATON, June 24—The rain of the last week has damaged the Santiam blackberries, only about one third being saved. This is a great loss to the growers as the crop was a bumper one and of the finest quality. The blackcaps are standing the elements better as they are not so far advanced and not such a soft berry.

MICKEY MOUSE

Rotary's Scout Troop Members Luncheon Guests

Rotary's Scout Troop Members Luncheon Guests. The new Boy Scout troop sponsored by the Rotary club was featured at the club luncheon Wednesday noon. The charter was presented by O. P. West. Members of the troop were introduced. F. Howard Zinsler talked on the significance of the Boy Scout movement. W. H. Dancy presided for the last time, completing a year's service. Max Page will succeed him in the chair. Attention was paid to the meeting of Rotary International in Vienna this week. North Carolina produced 66.5 per cent of all the flu-cured tobacco grown in the south last year. He was a popular clerk.

BACKS GOVERNOR ON JEW SHARP

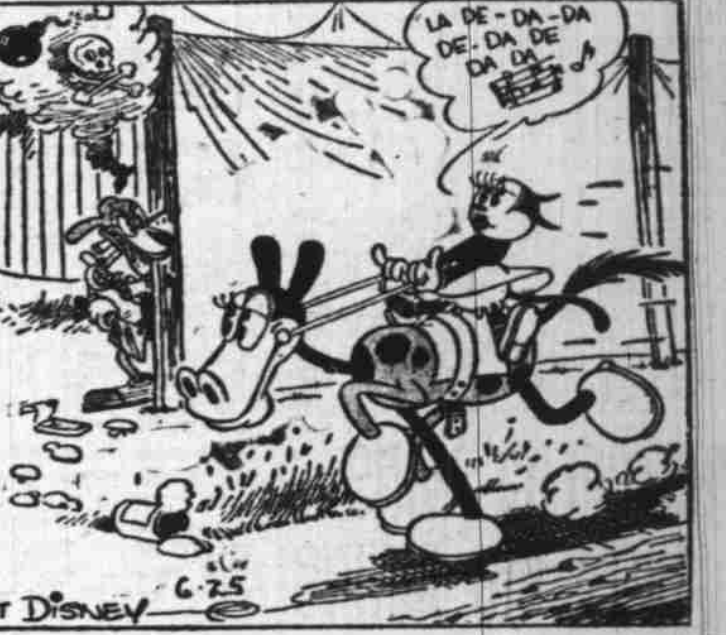

BACKS GOVERNOR ON JEW SHARP. The killing of a housefly today may prevent the death of a baby from typhoid this summer. The time to swat the fly is now when it is breeding its millions. The way to eliminate the fly is to destroy the infested places where it breeds. In the words of Walt Mason: "The early fly's the one to swat. It comes before the weather's hot. It sits around and cleans its legs. And lays almost a million eggs. And every egg will hatch a fly. To drive us crazy by and by." Oregon's campaign against flies and the elimination of the polluted sources of water supply are hailed by the headquarters of the Polk-Yamhill-Marion Medical society and the Marion-Polk-Yamhill Dental society as the two big agencies which have reduced the typhoid rate in Oregon to one of the lowest in the nation. The fly breeds in the garbage can and in filth and then people still wonder why it is that the common housefly has become such a menace to health of the babies of the nation," declares the Medical Society's warning. "The fly plays around where the typhoid and other disease germs abound. On its feet and legs it carries the disease and filth which brings disease and suffering to mankind and its children. VISIT AT JEFFERSON. JEFFERSON, June 24—Mrs. R. H. F. Struckmeier and three daughters were in Jefferson Monday from Tillamook, to see her father, Henry Powell, who is seriously ill at his home east of the S. P. depot. Mr. and Mrs. Powell's son, Alfred, of Aberdeen, Wash., and a daughter, Mrs. Leah Hamby of California, arrived Saturday to assist Mrs. Elsie Boyes and Mrs. Iris Arnold of Salem, who have been caring for their father. Mrs. Struckmeier will spend a short time at their ranch seven miles southeast of Jefferson, before returning to Tillamook.
