

SCIO ENJOYS PEP MEETING

"Children and Pure Water" Declared Town's Best Assets

SCIO, July 2.—Children and an adequate supply of pure water—these are two leading assets of a town, Dr. H. C. Epley of Salem told a pep meeting in Scio Monday evening. Asa Eastburn, manager of the Associated stores, presided in the absence of P. W. Schrank, who called the meeting but who was called out of the city on business.

The purpose of the meeting, which was held at the Scio confectionery, was to consider the proposal to commemorate in an appropriate manner the success of the town council in providing a new water supply for Scio—the drilling and equipping of a well 20 feet in depth.

The business houses of the city were well represented and enthusiasm was manifest from the sounding of the gavel to the motion to adjourn. "Invite the mayors of the neighboring towns, decorate the town, arrange for a Monday morning parade, and have a contest for a queen of the festival, get up a parade, floats, have a band during the day and in the evening," Dr. Epley suggested.

A general committee composed of P. W. Schrank, Earl Phillips and George Patry was appointed by the chair, with instructions to investigate the feasibility of the plan and to report at the earliest practicable moment.

A committee composed of W. H. Denison and G. F. Bryan was instructed to take up with interested business men the matter of a night watch for the city and make report at once. It was brought out at the meeting that salary for two months is now due the night watch. Mr. Bryan has since reported that a majority of the business men favor the retention of the night watch. Ott Blyden, who has served since last November.

A decorating committee composed of R. M. McCain and R. V. Carlson was named by the chair. Most of the merchants present indicated intention of closing their places of business on Saturday, July 4.

CANADIAN WHEAT CROP IS SHORT EGGS STEADY AFTER TWO GAINS

Little More Than Half Crop Expected and Prices Advance

CHICAGO, July 2.—(AP)—Sensationally adverse Canadian crop reports lifted wheat today, notwithstanding primary receipts in the United States totaled more than twice as much as a year ago. One Canadian authority said that allowing for any future improvement, this season's wheat crop would not exceed 300,000,000 bushels, compared with 374,000,000 last year.

Premier Bennett of Canada was quoted as saying the dominion faced its greatest national disaster.

Wheat closed unsettled 1-8-1 cent higher, corn 3-8 off to 1-8 up, oats at 1/4-1/2 advance.

OIL IS STOLEN

GERVAIS, July 2.—Thieves entered the barn and storeroom of Henry Fickel Sunday night and took a 30-gallon tank of motor oil, several milk cans and tools and drained another oil can of its contents and took all away with them. Mr. Fickel and family moved to this place during last week, and it surely does not give them a good opinion of the community to have this happen to a new comer.

Butter is Weaker With Receipts Heavy; Lambs Lower

PORTLAND, July 2.—(AP)—The egg and butter markets were resting today. Eggs were holding the two advances of the week, apparently without effort. Butter, however, was reported none too strong with receipts about as heavy as the traffic could bear.

Prices for country killed lambs were reduced here today. The market is 11-11 1/2 cents, with very little moving to the trade at the higher price. Hogs are steady at 12 cents; medium to poor calves and heavy veal is drabby, but there is a good call for choice light stuff. There will be no market along front street Saturday.

Watermelons were advanced a quarter of a cent a pound to 3 1/2. This advance, coming in cool weather with large supplies in the hands of retailers, surprised many.

Seedless grapes are arriving in larger quantity now and the price was marked down to \$2.25 to the trade.

A shipment of Bartlett pears was received from California. They are going to the trade at \$2.25.

New potatoes are moving slowly in trade circles. The supply is large and continues to increase as shipments come in from virtually all sections of the Pacific northwest. Kennebec offerings are moving at 1/2 cents and California's are a quarter lower.

Receipts of Chinook salmon are increasing, the Oregon Fish company reports. Prices are unchanged, but the market has a weak undertone and a recession may be forced next week.

There seems to be no demand for rhubarb. The quality of Gresham offerings is very good, but buyers do not seem interested.

LOGANBERRIES ARE HIGHER, PORTLAND

PORTLAND, July 2.—(AP)—Loganberries had a stronger tone on the East Side Farmers market today. Buying was good at \$1.35 a crate for good stuff. This advance may not hold, but if the supply continues to be reduced by canner buying, the trade expects to see this price carry over into next week.

There was a good supply of almost everything on the market as growers came in prepared to do all the business possible before the long weekend.

Although loganberries were higher, raspberries failed to do more than rally temporarily. Early sales for good stuff was an hour old prices reverted to the 90c-\$1.10 that ruled the previous day. Concessions from this level was expected before the end of the day.

The advance of loganberries to a point well above raspberries establishes a precedent for the season. The same thing happened one day last season, but it was not as marked as the premium established Thursday.
