LUCKY instead"

Place your finger on your Adam's Apple. You are actually touching your larynx-this contains your voice box - your vocal chords.

From the report of a famous scientist who studied the effects of LUCKY STRIKE'S exclusive "TOASTING" Process-

"During the course of some recent investigations...we became interested to ascertain whether Ultra Violet Rays produced any change in the quality of the cigarettes. It may interest you to know that I was able to detect a very definite difference in the irritant qualities of the treated and untreated cigarettes. Several tests were made, not only on myself, but others as well, and we experienced little difficulty in selecting the treated or irradiated cigarettes as distinctly less irritating to the mu-cous membrane of the nose and. pharynx than the control or untreated cigarettes."

Sunshine mellows-heat purifies - that's why LUCKY STRIKE'S exclusive "TOASTING" Process includes the use of modern Ultra Violet Rays. Remember-LUCKY STRIKE is the only clgarette in America that brings you the added benefits of "TOASTING". And so we say "Consider your Adam's Apple". Be careful in your choice of cigarattes.
