Mg. Stram, (who prefers just the plain prefix to his name) has just returned from Kansas, to rest a while from a strenuous ro-vival campaign in the middle west. Not only has his labor been very successful there but this young man has won thousands to Christ in this state where he is quite well known. With his family he is now resting at his mother's home in San Rafael, Californie

Mr. Charles Gibson will assis in the meeting with his-gospel songs also leading the group singing as he has been doing for Mr. Stram in the Kansas field.

The hall-lamp was not burn-ing and I could see her only in-distinctly. But I did make out that she was dressed in a dark coat, with the collar turned up, and that she stood so that her face was turned away from us. I spoke to her and asked her I she wanted to see the doctor. She answered me by demanding to know why I did not keep some one in the office while I was away. I said there was a young vin E. Bumper Grain

PRATUM, July 14-The hay crop is here as it probably is in aimost every other place in the valley. What was cut in time got badly damaged by the rain. What was cut after the rain was too ripe although it looks much better than the early cutting which was damaged.

Binders are tieing up grain pretty well all over this community. Wheat and oats will probably yield a normal crop which of course means a bumper crop for this part of the country.
