may have been hurt, could have found his way to the stump for protection from wind and rain. Then in desperate pain, without food or water, he probably strangled himself to end his suffering and the danger of starving to death.

This is the way Taylor and his party summed up the case. That Grundmann had apparently walked the 20 miles from Silverton, would tend to discredit outside for other reasons than something such as the injury. There was little possibility of the victim's being lost, for a logging road was visible from the stump, and whistles could be heard from logging operations less than a mile away. Why should Grundmann have gone so far, if he had left Silverton with the intent of committing suicide? That is the deputy coroner's question.

No inquest will be held, he stated.

Went to investigate Forest Fire Smoke.

The events ending with Grundmann's disappearance from his uncle's farm June 7 are as follows: On June 6 Grundmann wanted to go up into the hills to see if he "could see a forest fire" (there was smoke on the horizon); he wanted to earn some extra money, with which to pay some bills due in August; he said he might get work on a fire crew, or in a lumber camp. The uncle this day told the nephew not to go. The next morning Grundmann left, despite his uncle's orders. He had, however, been accustomed to go into the woods for a day or more, to get leaf mold.

Mr. Brinkmeyer, who is of good, gentle character, Taylor reported, did not report his neph-

ow's disappearance for two days, because of Grundmann's previous trips into the woods.

Searching Parties Fail to Find Him

Since that time, searches have been made, and speculation has run rife concerning the disappearance and failure to return, of Herman Grundmann, the blonde native of Germany.

Explanation of his death will doubtless never be more than theory, in the opinion of the deputy coroner.

The body is at the Jack & Ekman mortuary at Silverton.

The only other relatives, besides the uncle, are two brothers living somewhere in the east, as far is known.

RIOTS IN GERMANY QUELLED BY POLICE

Norton Home in Silverton Affre

ment decreed, but at least for the rest of this week they will take care of only such essential items as payrolls, tax obligations and the unemployment dole.

It was made clear Chancellor Bruening was determined not to permit a new run on foreign currencies or resumption of raids on savings banks.

Foreign Minister Dietrich also asked the people not to forget that "it is not the government but private industry which is pressed for cash." The Hoover plan, he said, with Chancellor Bruening's drastic economy program, has put the German exchequer "on its feet," and even enabled the government to begin repaying some of its floating debt. Already, he said, several hundred millions have been returned to industry.

One fatality from the rioting throughout the country was reported late tonight. The demonstrations were wide spread and directed largely against reduction of the dole.

In Leipzig the communists fired upon a police lorry. Twenty-six were arrested in a succeeding demonstration in which the police used blackjacks. A woman and a man were wounded when the police used their pistols in Dresden to disperse a group of rioters. In Gelsenkirchen, in the Ruhr district, about 500 communists fired from rooftops upon the police and one policeman was injured.

FIGHT ON RAILROAD RATES TO CONTINUE

Watsons Visit With Relatives

(Continued from page 1)

hold one of its hearings on the freight increase in Portland.

Railroad Planning Great Offensive

Thomas said that the railroads were planning a great offensive in their campaign for the increased rates, and with their organization, will put up a strong fight for the increase. Such fight is the problem of states and organizations of shippers which must be overcome if the rate increase is not granted. This, he said, can only be done by presentation of facts.

The executive committee includes W. A. Cutin, S. R. Sorenson, and M. M. Burns, Portland; H. J. Cox, Eugene; H. R. Richards, The Dalles; H. M. Dexter, Hood River; Warren B. Snider, Lakewood; Carl Haberlich, Tillamook; A. C. Marsters, Roseburg and A. R. Shumway, Milton. A. P. Harvey, in charge of transportation of the public utilities commission, is secretary-treasurer of the organization.

Ice patrol vessels of the coast guard cover a radius of 5000 to 6000 miles in their search for bergs and warn ocean ships by radio.

Aumsville Road Through Hills Being Repaired

STAYTON, July 15 — W. A. Riggs has a crew of men at work on the road between Aumsville and Salem through the hills. That part of the road which is new is where the road joins the highway between the tuberculosis hospital and the asylum farm and it is in fine shape.

The remainder of the road while fairly good is not recommended at present as there is much soft dirt where the men are at work.

It will not be long however until this road will be completed and will no doubt be much traveled. In the days of the horse and buggy it was traveled almost always as the distance at that time was said to be at least three miles shorter to Salem than the road via Turner.

PROTEST ON BALL TOSSERS IS FILED

Watsons Visit With Relatives

(Continued from page 1)

dividuals from Salem had attempted to persuade Mack to change his records, which Mack refused to do.

The party going to Alsea tomorrow will attempt to find the boys' father in an effort to ascertain their birth date. The boys now go by the name of DeJardin, their mother's family name. Their parents were divorced several years ago.

Should the Peek boys be declared ineligible, Salem will be thrown out of the race. In that case Oregon City and Hillsboro will play a three-game series Saturday, Sunday and Monday.

Salem lost one decision at the meeting. Keene declared ineligible Harvey Zimmerman, Salem pitcher recently acquired from Hillsboro. The reason for this action was that Zimmerman's name was not on the required list.
