'Sometime after assuming the office of state corporation commissioner last April," read a statement issued by Mott, "I directed an examination to be made of the affairs of the Pacific National Syndicate which, in August of 1930 had been granted a permit to sell one million dollars worth of accumulative installment loan certificates.

"As a result of the examination the permit was suspended on April 28, 1931. The permit required the proceeds of the sale of these certificates to be invested in mortgage loans. One provision of the certificate required the company to have on hand at all times cash, government bonds, mortgages or securities approved by the company's finance committee in an amount equal to the total liability of the company on these certificates.

"After the permit was cancelled reports began reaching this department that the company was continuing to sell its certificates in violation of the commissioner's order. This the officers flatly denied, and another investigation was launched. An investigator was sent to the office of the company and experienced no difficulty in purchasing an installment certificate.

"The investigation further disclosed that certain agents of the company were instructed to ignore the commissioner's order suspending the permit, and that the company continued actually to issue and deliver its certificates. Subsequently, it appeared from the investigation that these agents continued to take subscriptions for certificates and to collect money thereon, but the issuance and delivery of these certificates was held up."

Harvest Season Keeps All Busy

RICKEY, July 20—Owing to the late rains farmers are unusually busy as some of the early crops were delayed by the rains.
