GETTING READY FOR THE OPEN ROAD

To safeguard against overlooking some important item of camping equipment in the hurry to get started on the vacation trip, the practice of setting up and checking over the equipment in the yard is recommended by camp experts of the Western Auto Supply Company. The family above is shown checking over their outfit equipment in preparation for the touring season.

About 20 ladies enjoyed their noon lunch together, after which the usual program was given, with the president, Mrs. E. J. Gilstrap, presiding. The lesson study was on Thibet. A different country is studied each month.

Mrs. J. M. Bones will entertain for the next meeting, on the fourth Thursday afternoon in August, with Mrs. F. C. Delzell and Mrs. Howard Baker as joint hostesses. Mrs. Susan Girardin will have charge of the program, with the subject of Japan for the day's study. Friends are always welcome.

STANDARD RESUMES BIG ADVERTISING

The Standard Oil company of California, long one of the largest users of newspaper advertising in this section of the country, but which has been somewhat dormant as an advertiser the past year or two, is back with large schedules again and is now launching its third and largest campaign of the year, using The Statesman and other papers in its territory, reaching a combined circulation of over 2,500,000.

In this year of depression and price wars this vigorous drive of a major oil company is significant. It shows that the executives of this great concern have decided that now is the "time to strike"; and according to the tests made on their first two campaigns this year, they have found that "it pays". As J. H. Eastman, of McCann-Erickson, handling their copy, writes: "In other words, the Standard Oil company meets the depression problem with a strong weapon.—ADVERTISING."

GUEST AT TURNER TURNER, July 25—H. P. Jensen and children Albert and Eleanor have had as their guest for the week, little Alma Jensen, of Portland, who has always made
