## LICENSE RECEIPTS BELOW LAST YEAR

**210,000 Vehicles now Bear Current Tags, Report of Gabrielson**  
Returns from motor vehicle license fees for the current year are slightly below those of last year, although the exact amount cannot be determined until the sheriffs have reported the applications filed recently in their offices, according to announcement made Wednesday by Carl Gabrielson, in charge of the state motor vehicle department.

The records show that at the close of business Tuesday night approximately 210,000 motor vehicles had been licensed for the current year. It was estimated that the total licenses for the year would exceed 290,000. Receipts from licenses issued up to last night were \$400,000 less than on the corresponding date last year.

The falling off in applications for licenses was attributed to the general business conditions, and the announcement by Governor Meier that he would pardon any person convicted of using last year's license plates up to August 1.

Gabrielson declared that a large number of persons had applied to the sheriffs for licenses during the past two weeks. These applications are now being worked out in the Salem offices of the motor vehicle division. It was expected that virtually

**"TOASTING" expels SHEEP-DIP BASE naturally**  
(Black, biting, harsh irritant chemicals)

**present in every tobacco leaf**

**"They're out—so they can't be in!"**

Every LUCKY STRIKE is made of the finest tobacco leaves the world can offer—the finest from Turkey—the finest from Kentucky, Tennessee, Virginia, Georgia and the Carolinas—the Cream of many Crops throughout the world. But all tobacco leaves, regardless of price and kind, as nature produces them, contain harsh irritants. LUCKY STRIKE'S exclusive "TOASTING" Process—a process that mellows, that purifies, that includes the use of the modern Ultra Violet Ray—expels certain harsh irritants naturally present in every tobacco leaf. We sell these expelled irritants to manufacturers of chemical compounds, who use them as a base in making sheep-dip\*, as well as a powerful spraying solution for fruits, flowers and shrubs—enough to permit the daily dipping of over 50,000 sheep or the daily spraying of many thousands of trees. Thus, you are sure these irritants, naturally present in all tobacco leaves, are not in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.
