Great Time had by Institute Attendants; Races, Water Sports, Features

DALLAS, August 8—The members of the Epworth League who are attending the Institute at Falls City, held a picnic in the Dallas city park Friday afternoon About 250 made the trip to Dallas in cars furnished by the Dallas business men through the chamber of commerce.

The afternoon was taken up by races and other water sports with a picute lunch in the evening. Rev. Leroy Walker of Hillsboro, was in charge of the program, with Rev. Oliver Gill of Portland, assisting. Rev. Walter Walker of Falls City, arranged for a group of Boy Scouts to assist in preparing the meal.

The group from Portland proved their supremacy in water sports when they outscored Salem 29 to 17. The faculty was the only other team to score and made one point in the boys' underwater

National Association Heads **Back Recommendation** Of Federal Board

LONGVIEW, Wash., Aug. 8. (AP)-Unqualified approval of a report of the federal timber con-servation board, which recom-mends curtailment of production of all kinds of lumber, was given here Friday by the executive committee of the National Lumber Manufacturers association.

The report of a special committee of the federal board made public several weeks ago, proposed that production by mills in all fields of the lumber industry be "limited to the minimum." The executive committee is made up of men from all parts of the country including R. B. White, Kansas City, representing

southern pine interests, J. P. Hennesel, Minneapolis, for several Great Lakes district associations, and E. T. Allen, Portland, western director. In a formal resolution of approval, the committee declared the report the most comprehensive ever seen on present condi-

tions and the outlook for the in-

dustry. It was decided to ask that

another quarterly report be given An extensive trade promotion plan, approved previously by trustees of the association, was outlined at length by Walter F. Shaw, Washington, D. C. after hearing his address the 20 lumber executives present considered methods of financing the pro-

conference adjourned to-
