

EAST SIDE LAD WURLS VICTORY

Leveen, 14 and Small, is Nemesis to Hopes of Marion Juniors

Fourth innings, he began to get steadily better, and was thoroughly master of the situation from then on.

John Perry, on the mound for the third successive day, pitched courageously and for the most part effectively.

But it was a tiny pebble in left field, or something like that, which decided the state championship.

The Marion Juniors were out of luck from the start, Keber drove a mighty one that looked good for a home run, but Etch in left field ran and ran and finally dragged it down for a putout.

Both teams played errorless ball, in sharp contrast to the previous games of the series, and they also played spectacular ball on defense.

Severely plagued a hot liner to spoil an East Side threat in the first inning, after Vern Peck had cut off an attempted steal with a perfect throw.

Under the Dome...

Occurrences and Gossip at the center of Oregon's state government

THE LEGION convention, which closed at Corvallis yesterday, had a particular significance to Charles A. Howard, state superintendent of schools.

Now that the Legion convention has been safely terminated, and Salem shared well in the honors, things next week will perhaps return to normal, at least as far as vacation periods will permit.

O'Neill and Howard both graduated from Baker University at Baldwin, Kans. Howard finished in 1907, a few years ahead of O'Neill, but he said O'Neill was known to him and both were acquaintances.

Yvocation has left the supreme court officers virtually without any occupants, with but two exceptions, Justice George Rossman is spending his vacation in Salem and is at his office about every day.

HOP MADE SAFELY TO POINT BARROW

POINT BARROW, Alaska, Aug. 8—(AP)—Near the roof of the world, within sight of the perpetual polar ice cap, Colonel and Mrs. Charles A. Lindbergh plotted their route today for the remainder of their vacation trip to the orient.

Welcomed by a handful of excited whites and several hundred eskimos, they brought their low-wing monoplane down on a lead of open water in Bering sea at 5:56-mile flight from Aklavik, N. W. T., made in six hours and 39 minutes.

Mrs. Lindbergh pronounced an "expert" by northern radio operators, was in almost constant communication with the radio stations here and at Aklavik during the flight.

They left Aklavik, after a three day stay, at 7:30 p. m. (P.S.T.) last night. At 10:45 p. m., the plane radioed that they were flying over a low fog bank and would turn inland to find better weather.

A little more than an hour later, a second message was intercepted saying they had emerged from the fog. The route lay along Beaufort sea and the Arctic ocean.

ROLLINS DEPARTS FOR GUARD SCHOOL

Glenn Rollins, Salem high graduate of 1929, who last June received 17th highest rating in the United States when he took government examination at Portland, left Salem this week end for New London, Conn., to enter the coast guard training school, New London academy.

His government school work will consist of four years at the academy, with each summer a three months' training cruise, probably to Alaska. After graduation, he will be required to spend at least three years in government service.

Following his graduation from high school, Rollins studied at John Drew war school in San Francisco for one year. The past summer he has been on a tour of the midwestern states, playing with Bert Clark's Californians, a dance orchestra. During his high school years his chief activity was music, and he played for Thomas Brothers dance band and the Troubadours.

SALMON RIVER ROAD IN TOP SHAPE NOW

Going to the beach today? Take the Salmon river cut-off and save time. This short cut road, 60 miles to the coast highway, is again in excellent condition, except for the last five miles, according to Frank E. Jones, district supervisor of the Oregon State Motor association.

Or if Breitenbush is the desired destination, the report is that the road is excellent to Mill City, rough the next four miles, good on into Detroit, and rough but passable at a reasonable speed the 11 miles to the springs. The upper end of the Breitenbush road is dusty.

The greater part of the Salmon river road is now oiled, so that dust will be negligible. As fast as the workers oil a strip, they are covering it with fine gravel, to prevent the sticky stuff splashing on cars.

The coast highway south from Otis, the Salmon river junction to Taft, is in bad shape in several places because of construction. Jones reports that travel south over these portions of the road is slow and dusty.

More than 25 per cent of the total acreage in Clatsop county is now classified as reforestation land. Little of this land belongs to the county.

Although most of the land which is being classified is generally considered worthless, the assessed valuation ranges from one to five dollars per acre.
