## Pattern

2076

The cape collar has always been an attractive feature of children's frocks. In some years it is quaintly interpreted, as an echo of Kate Greenway fashion, but this year it is directly borrowed from smart grown-up frocks, and is more popular than ever. The cape collar on this frock matches the flaring lines of the skirt, making a frock suitable for parties if interpreted in party materials such as silk crepe, embroidered organdie or georgette, and practical for every day if one makes it in sturdy cotton print, linen or shantung, with bloomers to match.

Obtainable only in sizes 4, 6, 8, 10 and 12. Size 4 requires 2 3/4 yards of 36-inch material. Yardsage for every size, and simple, exact instructions are given. No dressmaking experience is necessary to make this model with our pattern.

"YES SIR! THESE WHISKERS ARE MIGHTY TOUGH!"

"WHEN you got a lot of whiskers as tough as mine, you got to be awful careful how you shave. If you don't do like Daddy does and soak 'em in hot water, you'll scrape yourself awful. I guess I'm such a good shaver 'cause I use lots of hot water."

Summer shaves can be just as smooth as you wish, if you have plenty of hot water to slosh around. But somehow, heating water in teakettles or running to the basement to light obsolete heaters isn't much better than using cold water. Let us show you how the Electric Water Heater can give you instant hot water throughout the summer—and all the rest of the year. It's a comfort that's nearly a necessity—and electricity costing so little, the price is amazingly low. Call us today.
