

Local News Briefs

River Said Not Dangerous—Complaints that the Willamette river is too contaminated for safe swimming are not really serious, according to Dr. Vernon A. Douglas, county health officer, because the condition of the water, even north of the city, is not so bad as to be a definite menace to bathers. Swimmers are more liable to receive skin infection from dirty swimming suits, towels or even from lying on the beaches, he said. The chief present danger from swimming would be from typhoid, dysentery or other intestinal disorders the natators might contract through inadvertently swallowing the water.

Education Authority Coming—G. H. Nelson, New York City, head of the educational council of the national Y. M. C. A., who is said to be an authority on adult education in the United States, has been secured by the local Y. M. C. A. to be present in Salem all day September 3. He will speak at a luncheon and opportunity will be given interested citizens to hear his man.

Milkhandlers Examined—The largest number of milkhandlers in some time, 24, were examined at the clinic for that purpose held at the Marion county health center this week. The unusual number was due to the fact that milkhandlers formerly under the jurisdiction of the city of Portland have been changed to the Salem district by the milk producers cooperative association, and the milkhandlers are striving to bring their dairies up to the B grade standard requirements.

Tailight Obscured—H. A. Gueffroy, 205 U. S. National bank building, drove his car into that of Pearl Ryan, 2344 North Front street, Tuesday, because the Ryan machine was parked too near the corner, not parallel to the curbing and the tail light therefore obscured around the side of the auto trunk, he reported yesterday to the police. The mishap occurred at the corner of Front and Pine streets at 9 p. m.

Going Slowly, Hit—She had just backed away from the curb and was moving ahead slowly in second gear, when a car driven by Miss Merle Dimick, 720 South 12th street, backed out and struck her machine, on State street between High and Liberty streets. Lode Ohmart, route 3, reported to the police yesterday. A fender on the Ohmart machine was cracked, the driver said.

Accident Excuse Made—Eugene Halterman, Beverly Hills, Calif., motorist who backed his car into that driven by Frank R. Kellogg, 129 New Bligh building, reported to the police yesterday that he did not know Kellogg's machine because of another car passing him in the middle of the block, on State street. Kellogg charges Halterman with backing out from the curb too fast.

Dispute Right of Way—Arla C. Davis, 425 Fawck avenue, whose car was struck by that driven by C. E. Hald, route 9, at Court and Liberty streets Tuesday night, claims in the accident report, that Hald did not have the right of way. Hald says he was past the center of the intersection when Davis cut in ahead of him.

Speeding is Charged—Exceeding the speed limit in the city was charged to Andrew Peterson, 1795 McCoy avenue, when he was arrested yesterday by a city traffic officer. He is cited to appear in municipal court today.

TRIO KILLED IN RIDDLED CAB

Six persons—two policemen, two bandits, a baby girl and a taxicab driver—were killed and eleven others wounded in New York when fleeing payroll bandits were chased by 200 police amid a hail of bullets through some of the city's busiest streets. This picture of the riddled taxicab in which the holdup men tried to escape shows graphic signs of the terrific bombardment of lead which cops poured into it. The body of the cab's driver can be seen at right.

PROGRESS MADE IN DRUM CORPS DRIVE

Two individual contributions, one for \$300 and one for \$50, have given Capital Post legionnaires a hearty impetus in their campaign to raise \$2500 locally as Salem's share in sending the drum corps to Detroit. The receipt of these donations was announced yesterday but donors preferred their names be withheld. The post is attempting insofar as possible to raise \$1500 from within its own membership. The two initial gifts were from outside the official organization. Members are being asked to contribute \$5 to \$10 individually but where this is impossible sums as small as one dollar are to be taken. The balance needed between \$2500 and the sum raised, will be secured, if possible, by a big public dance. Plans discussed yesterday called for holding this dance at the airport. The large concrete floor there can be surfaced, it was pointed out, and the hangar also converted into a temporary floor. The goal of the legion would be to sell one thousand tickets at one dollar each.

FIRE ALARM RINGS DUE TO MISTAKES

Three false alarms were rung in at the central fire station yesterday. At the first "brrrr" of the strident rone, which may be heard half a block away, firemen scurried from all directions to their positions at the tracks, only to find someone had either dialed the wrong number or had called the department on the wrong phone. But unlike the shepherds in the well known "wolf" story, the city's fire guards have to take every alarm call seriously.

Three-one-four-four should be dialed only to give the alarm of a fire, Harry Hutton, fire chief reiterated for the hundred-and-thirtieth time yesterday. This 'phone rings the general fire alarm, hence using it for routine calls to the station results in needless confusion at any time and in great inconvenience to firemen when they are routed out from bed on the night shift.

Judge Belt And Putnam Report Fishing Is Good

Two well known Salem fishermen, Judge Harry J. Belt and George B. Putnam, returned home Wednesday from an interesting fishing trip up into the famous

Frazier river and Mountain Goat country in British Columbia. A part of the distance, covering 80 miles, was made by pack horse where "some of the finest fishing ever to be wanted was experienced—we even had to throw 'em back" remarked Judge Belt yesterday. The country was beautiful, the weather ideal, the fish biting good and the company "ok" and all in all the trip was a complete success. They were accompanied by John Orf, prominent Medford banker, who, accustomed to "good fishing" in the Rogue river, still admitted the fishing of the best. The fishermen were absent from their official duties for a period of 10 days.

Greer's combustion, with Perry up, won the four and a half furlong event. Behind Maxey Bush, these entries finished in this order in all three heats; Alto Mack, owned and driven by J. W. Merrill; Gresham; Madam Queen, owned by Anna Hutchinson and driven by Hutchinson; Galley Vernon, owned by Merrill and driven by Milan.

Harry Barrett Operated Upon For 7th Time

Harry E. Barrett, 305 South 23rd street, underwent his seventh serious operation within the past few months, at St. Vincent's hospital in Portland yesterday morning. His daughter, Miss Helen Barrett, said last night that when she left her father at two o'clock he was quite ill, suffering from shock but recovering as well as could be expected. Mrs. Barrett is staying at her husband's bedside.

"TOASTING" expels SHEEP-DIP BASE naturally (Black, biting, harsh irritant chemicals) present in every tobacco leaf

The finest tobacco quality plus throat protection.

"They're out-so they can't be in!"

Every LUCKY STRIKE is made of the finest tobacco leaves the world can offer—the finest from Turkey—the finest from Kentucky, Tennessee, Virginia, Georgia and the Carolinas—the Cream of many Crops throughout the world. But all tobacco leaves, regardless of price and kind, as nature produces them, contain harsh irritants. LUCKY STRIKE'S exclusive "TOASTING" Process—a process that mellows, that purifies, that includes the use of the modern Ultra Violet Ray—expels certain harsh irritants naturally present in every tobacco leaf. We sell these expelled irritants to manufacturers of chemical compounds, who use them as a base in making sheep-dip, as well as a powerful spraying solution for trees, flowers and shrubs—enough to permit the daily dipping of over 50,000 sheep or the daily spraying of many thousands of trees. Thus, you are sure these irritants, naturally present in all tobacco leaves, are not in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.
