We consider the basis pool price for the 10-day period following the milk strike and including August 15 as very satisfactory.

BUTTER SURPLUS NOW DEVELOPING

Portland, Aug. 29—(AP)—Surplus of butter is appearing in the local trade at the weekend.

Butterfat values are generally steady. Shading of wholesale milk prices is reported.

There remains a rather favorable trading picture in the market for eggs. While sales of storage goods are increasing, and practically none of this is being sold as out of coolers, the market for strictly fresh stock is maintained.

With hogs very weak and inclined to move in a sluggish way, country killed calves of top quality are firm at the latest price advance.

WHEAT SALES FEW WITH PRICES DOWN

Chicago, Aug. 29—(AP)—Wheat trade was of minor proportions today, despite the fact that the December delivery sold at the lowest prices of the season.

Traders were disappointed at the 12 per cent reduction in official estimates on farmers' intentions to sow winter wheat, expecting a larger reduction, and also were depressed by weakness of quotations at Liverpool.
