Idaho Officials Fear men Released Will Plan to Create new 'Jobs'

Encouraging Reports Come From Placerville and McCall Fire Areas

BOISE, Ida., Aug. 31-(AP)-Five rifle units, a machine gun company and two medical units of the Idaho national guard were in the field today to enforce the edict of martial law pronounced by Governor C. Ben Ross as a protective measure against incendiar-

While the troops were being distributed to various control points on the highways, reports from two main southern Idaho fire fronts said a large number of men would be released as fire fighters and escorted out of the restricted area.

The martial law proclamation was issued, Governor Ross stated, at the behest of forest officials who feared that "firebugs" among the men being released would quickly spread into the and men out of work, the directforests and start a new series of ors decided to invite representafires which would give them work tives of the Salem banks to meet but at the same time cause further loss in the timber areas. LEADERS FOR TRIP

The three men who will guide the destiny of the drums corps of gion, were chosen last night at the annual election meeting. Hobart E. Shade was the choice for president and manager, M. Clifford Moynihan was re-elected secretary-treasurer and Ray De-Guire selected for the quartermastership. They take office im-

mediately. The solicitation for \$2,500 funds to finance the corps' trip to Detroit for the national convention competition is progressing satisfactorily, the Legion executive committee reported. To assist the Salem post in its drive for money, the Stayton legion post has offered the drum corps the use of its pavillion for a benefit dance to be staged there Saturday, September 12. The only expense to the Salem organization will be remuneration for the orchestra members. The drum corps decided to parade on the Stayton streets before the dance. The following — Wednesday night, September 16, the corps will entrain, on the Oregon Legion convention special, leaving

Portland at 11 p. m. The Salem Governor Julius L. Meler of party will have three cars, a Pull-Oregon has invited the governors man, baggage and a "stripped" to meet in Portland on that day. diner. On this diner the corps members will hire their own cooks, and do their own waiting on table and washing dishes. By aver, get more food than they would on a standard diner, with the contract for but two meals a day. This latter proposition was suggested by railway officials.

Philanthropist Studnicka Comes Home Following -Roundup Victory

Proposes League of Nations Direct General Fight Upon Aggressors

Would Solve Parity Issues Coming up at February Parley, Contended

(Copyright, 1931, by the Assoctated Press)
Aug. 31.—(AP)—Jo-

seph Paul-Boncour, foreign at-fairs chairman of the chamber of deputies, in a statement to the Asociated Press proposed that the armed forces of every nation be placed at the disposal of the League of Nations to put down wars of aggression.

M. Paul Boncour, who will be one of France's principal delegates to the Geneva disarmament conference in February, declared France was ready to take that momentous step.

"Are other nations, like us, ready?" he asked. "Are they willing to put their permanent air. naval and land forces under the control and at the disposition of the League of Nations? By this gesture the problem of parity might be solved."

League Would Hold World "Mortgage" His statement was issued after careful preparation and painstaking examination lasting days. Under his plan, the League of

Nations council would exercise "an international mortgage" on the forces of the nations in the event of a war of agression. This "mortgage" would be exercised under article XVI of the League covenant, which provides for the severance of all trade or finance relations by members of the league with a state which has committed the act of aggression. .The article also authorizes the league council to recommend to the governments what effective military, naval or air forces they should contribute to put down an aggression. This provision has for years been the basis of many orations and debates at Geneva. It finally was interpreted in the sense that it is the parliaments of the various nations which must decide whether and to what extent their rountries shall contain

tent their countries shall contrib-ute armed forces. The Paul-Boncour proposal revives this entire probem for the Geneva disarmament conference. The French socialist forecast that

France would support his idea. In his statement M. Paul-Boucour attempted to refute the German and Italian idea that it is feasible to bring about absolute equality of armaments among na-tions. He defied anybody to prove that mathematical parity is workable or possible and characterized as duplicity any effort to estab-

TWO CARS COLL**IDE**

ROSEBURG, Ore., Aug. 31. — (AP)—A 3-year-old boy was kill-ed and two persons were injured tonight in an automobile crash at Coos Junction, six miles south of here on the Pacific highway. The boy was Jack Redbarn, son of Mrs. Martha Redbarn, Roseburg. Louise Jennie, Ten Mile, and Chester King, Bridge, Ore., were injured, the former suffering serious cuts about the face
