Enthusiastic Plans are Laid for State Fair Horseshow

Novel Features Arranged Exceptional Entry List is Assured

Catching the enthusiasm of Aaron Frank, chairman of the night horse show advisory committee appointed by Governor Meier to work with Max Gehlhar, director of the department of agriculture, the committee met in Salem Tuesday night and formed a campaign. They made up a program to entice every lover of horses that can make his way by automobile or horseback to the big stadium at the Oregon state

Chairman Frank made provision to have an experienced horseman to act as announcer over the loudspeaker. "We want everyone to understand the good points about the horses, and the skill necessary to put them through their paces," he said. "I know everyone will appreciate expert explanation of the program as it proceeds." Every member of the commit-

tee has been pledged to fill those stakes not yet completely subscribed. A. P. Fleming, who came from California for the meeting, said there will be \$8500 offered, including seven \$1000 stakes and three \$5000 stakes.

Fleming has an international reputation for managing successful horse shows, and he cames dents. back to Salem each year. The members of the committee complimented him on the splendid list gation yesterday. of new exhibitors who will appear at this fair. Slade Chairman of

his company has great possibili-ties. His is one of the two companies handling reindeer prod-ucts. A number of buying posts are maintained in Alaska and shipments made to the warehouses in San Francisco, Los Angeles, Portland and Seattle during the killing season. Headquarters are maintained at 165 Pine street, San Francisco, and the company also has offices in Se-

Three weeks ago a shipment of 2,000 reindeer or 320,000 pounds of deer meat, was shipped to the company from Alaska, the first

shipment of this season. Howell said yesterday that the steamship Tupper, due from Alaska early in October, will carry several hundred live reindeer which have been contracted to de-Captain O'Dale and Patrolman partment stores and chambers of commerce to exhibit in teams during the Christmas holidays. "Children will see real live reindeer in a number of cities and towns through this shipment", he said. A similar stunt last year, carried out on a smaller scale, met with decided success in the eastern cities where the deer were shown, he says.

Howell is known to meat dealers over the state, having made regular visits in the interests of his company for the past two

(Continued from page 1) asked elimination of the entire system as an economy measure. Part of the problem was answered by Attorney General I. H. VanWinkie, who in an opinion to the Yambili board, declared "the theory of the law; in respect to the matter in question, is that the authority of such boards (county boundary) is merely reg-

ulatory and not prohibitive. "For this reason, it is my opinon that the district boundary board has no power to veto es-tablishment of routes, but must allow reasonable routes to be established, and merely exercise its authority over them in a regulatory manner.'

Thus it appears that the boundary board must designate routes when they are demanded by school districts which wish to operate them.

Then to "save" the bus system, the county board on August 18 called together here members of all high school boards in the county and plans were discussed whereby each district would reduce its demands on the transportation and tuition funds of the county. Two days later the county body drafted a plan in which it suggested that \$45 be the maximum demand against the transportation fund and that \$95 be the maximum demand against the tuition fund. This proposal,
