

MORE PUPILS EXPECTED, SCIO

Additional Territory Awarded by District Boundary Board

SCIO, Sept. 10.—Indications now point to the largest enrollment in the history of the Scio schools when the district boundary board recently had visited school districts 11, 12 and 61, between Scio and Stayton, and had awarded Scio additional territory in that region for bus transportation to the schools of this city.

This was predicted by Prof. F. A. Gallegly, principal of the local high school, when he announced that the Linn county boundary board recently had visited school districts 11, 12 and 61, between Scio and Stayton, and had awarded Scio additional territory in that region for bus transportation to the schools of this city.

It is possible also that additional pupils may be received from the DeWall and Crabtree neighborhoods, Gallegly added, in which event it may become necessary to put on another bus. Three district buses and a private conveyance have been tentatively planned for the present school year, it was stated.

Donald and Triumph district 1 again will send grade and high school pupils to Scio. These districts voted to discontinue schools there and provide schooling in Scio for their pupils. This arrangement is said to be more economical for the county districts and at the same time a satisfactory plan for the Scio schools.

Teacher is ill
For the convenience of pupils who may desire to register prior to the opening of school Monday morning, September 14, Gallegly stated, registration may be effected any time Friday afternoon, September 11.

Miss June Papke is reported ill with typhoid fever at her home in Philomath and will not be able to take up her work in the fifth and sixth grades at the opening of the Scio schools September 14. A substitute teacher will be employed by the Scio board of education.

SHIPLEY'S

"I'm older than you think I am..."

"BUT I remember some of the things that I heard when I was younger.

"I was told to watch out for one of those so-called friends who is so mighty glad to see you today—almost going to hug you; and the next time you see her, is holding her head high in the air and won't even speak to you.

"I was thinking about this while I was enjoying a CHESTERFIELD cigarette. You know, I have been smoking CHESTERFIELDS quite a long time, and they are not like some of our friends—one thing today and another thing tomorrow. They are *always* the same—always mild—always so pleasing in taste. They just satisfy all the time.

"By the way, that reminds me of something. I was playing bridge recently with a girl friend of mine and two men, and after we finished the game they began lambasting a whole lot of things and folks. Some of the talk was right funny, you couldn't help laughing; but, really, they pulled down a whole lot of things, and didn't build up anything.

"And that reminded me of a salesman who called to see me the other day to tell me something about CHESTERFIELD. The thing that pleased me more than anything else was that he didn't lambast and cuss out any other cigarette; but, of course, he thought that CHESTERFIELD was the best... And I rather agree with him. They do satisfy."

GOOD... they've got to be good!
