Yield Greater Than Expected: Grower Gets 2000 Pounds to Acre

MT. ANGEL, Sept. 11 - Hop picking in the Mt. Angel district is drawing to a close and most of the yards will be picked by the end of this week. A few yards of very late hops will take about a week longer to finish.

During the past three weeks hop picking has given employment to hundreds of men, women and children in this district.

Pick for 90 Cents The prevailing price paid for picking has been 90 cents a hundred pounds. Many pickers made good wages at this price, which is a 10 cent reduction per hundred pounds over that paid last

All yards have had much better yields than was expected six weeks ago. Yields have been reported as high as 2000 pounds to the acre, although the majority of yards had a medium crop. The hops here are of exceptionally good quality.

moving fast, the majority of sales being at 15 cents a pound. Hop men consider this a fair price, and allows them a small margin of profit for their work.

A majority of the baled hops are being hauled in and stored at the Schwab Commission Co.

SALE TO GERMANY HELPS GRAINS TRADING REFLECTS NEARING FINISH HIGHER GRADE EGGS UP TWO CENTS IMPROVED DEMAND

Spring Wheat Crop is Light, Another Factor

CHICAGO, Sept. 11-(AP)-Live price bulges in all grains today accompanied news that 7,-500,000 bushels of United States government-financed wheat had been sold to Germany.

Wheat finished at virtually the day's topmost figures, influenced also by threshing returns showing that domestic spring wheat this season gave the smallest yield per acre ever known. Estimates were current that exporters took 2.000.000 bushels of North American wheat yesterday, including a good sized percentage of domestic hard winter grades.

Wheat closed strong 14-1 3-4 cents up, corn 3-8-1-8 advanced, oats at 3-8-1 3-8 gain. Wheat closed at: Sept., Dec., 50 3-4-7-8; March, 55 3-8-
