Eggs Strong; Big Demand For Turkeys is Noted On Portland Mart

PORTLAND, Sept. 16-(AP) decreasing output in general.
Locally the make is still showing a loss although a triffe less pronounced than a few days ago.
Receipts from the country show an increase for recent days and all arrivals are finding a good call within the established price range for both cubes and prints. Demand for storage butter is aggravated by the shortage in

the fresh make. Market for eggs continues to reflect a strong tone generally with practically no change in the local price list. Values elsewhere are generally inclined to hold intact.

CHICAGO, Sept. 16—(AP)— Signs of a rainbow for wheat owners appeared today, with indications the United States and Can-ada this season would have a vir-tual monopoly of high grade wheat. Reports of an inferior spring wheat crop in Russia, an adverse crop situation in the southern hemisphere and poor harvest returns in western Europe, especially France and Belglum, were received. In addition estimates pointed to likelihood that China would need 4,000,000 tons of wheat 135,000,000 bushels, for flood relief.

# MINT DEAL GLOOMY SAYS BIG GROWER

WACONDA, Sept. 16-Mr. and Mrs. G. W. Thurman of Forest Grove called Monday at the Ai-

lyn Nusom home.

Distilling of peppermint was recently completed at his farm near Banks and 70 acres of mint is now being harvested at Clat-skanie.

While the crop at Banks was not as good as formerly the yield is unusually heavy at Clatskanie.
The prospect of receiving one
dollar per pound which is the
present price offered is not so
pleasant as the cost of production is high. Three dollars, Thurston thinks, would be a fair price. He expects to harvest around 5000 pounds. The Thurmans are well known here having farmed the Elmer

Savage place for years.
