

DAOS CONSIDER MANY MATTERS

Step Ordered Along Front Street Curb; Sidewalks Are Discussed

Woodburn, Sept. 16.—Authority to construct a concrete step along the present curb line on the block between Grant and Lincoln streets, on First street, was given by the Woodburn city council at its meeting Tuesday night. The cost of construction of the step will be borne equally by the city and the property owners.

Authority was given to cut back the present curb line 18 inches and to construct a 12-inch step from the present curb line to the new curb. It is estimated that it will not cost either party more than 28 2-3c per running foot.

Library Needs Roof
Miss Mary Spilard, representing the city library board, appeared before the council and explained how the library's budget would not permit expenditure of \$50 on the library roof for necessary repairs. The council, at a former meeting, gave permission to re-roof, but provided no way for raising the funds. Miss Spilard compared the budget for 1931 with the expense account of 1929 and showed that no money is available.

Councilman Epp brought up the subject of library fines, asking if the money from them could not cover the expenses for repairs. Miss Spilard replied that money from fines was used to rebind the worn books. Hoefler suggested that possibly some of the patching cement being ordered for the city hall could be used for the library. "If material is furnished, the labor would amount to about 10 or 15," explained Epp.

When Miss Spilard asked if the council would go "fifty-fifty" with the library board on the labor account, Mayor Broyles said the council would consider the matter more consideration.

Post Plans Dance
Dr. John M. Hanrahan, representing the Woodburn American Legion post, appeared before the council to ask permission to stage a carnival Amfiteatro day. He explained that there would probably be a parade on the downtown streets and that possibly some of the streets around the armory would be used. "We need funds to help carry on our work for the community, such as Boy Scout work, junior baseball, and charity," he explained. The council gave its consent to the undertaking.

The matter of sealing that a sidewalk being constructed in front of the Elliot property on Second street be up to grade and still level with an adjacent sidewalk, was left to the street and alley committee.

Approve Property Sale
The council approved a motion brought forward by C. J. Epp, that the city recorder and mayor execute a deed to the Shore property on Corby street, place it in the bank and deliver it to a possible buyer on the receipt of \$850. The matter of getting a price for the city's property at Front and Harrison street was left to the property committee.

A motion that a sidewalk be constructed over an old driveway to a building on Gatch street, between First and Second, was approved.

The city recorder, George Beach, was instructed to communicate with the public service company which is removed from poles on First street. Councilman Hoefler contended that some of the sidewalks were broken during the process of removal.

Beach was also instructed to advertise for bids on seven cords of red-foot wood, to be used in the city hall.
