Demand for grapes was good with most sales 50c crate or lug. Cabbage demand was steady; mostly \$1.25 crate for best. Green broccolli was in fair call 30-35c lug.

Cauliflower market was over-filled and while sales were made within the former price spread—50c to \$1 crate—bulk of the business was not above 85c for 1s.

GRAINS DROP DUE TO BRITISH MOVE

CHICAGO, Sept. 21—(AP)—Great Britain's temporary abandonment of a gold basis for her money system forced a fall of 3-5 cents in Chicago wheat prices today. Corn advanced a maximum of 2 1/2 cents, with both the leading grains out doing the season's previous bottom quotations. After one hour of flurried selling to stop losses, however, grains displayed notable power to rally with stocks and respond to buying on the part of exporters and millers.

Wheat closed nervous 3-5-7-8 cents down, corn 2-3-1 1/2 off, oats unchanged to 3-8 higher.

Today's closing quotations: Wheat: Sept. 47 1/2; Dec. 47 1/2; March, 50 7/8; May, 52 1/8. Corn: Sept., 40 1/4; Dec., 36 5/8 to 3/4; March, 38 3/4; May, 40 5/8 to 3/4.

HUBBARD, Aug. 21—Harold Case is building a chicken house for his mother Mrs. Case at her home west of Hubbard.

Jack Drinnon is building a basement and other remodeling his home east of Hubbard.

BUTTER MAINTAINS ITS STRENGTH HOG PRICES HERE DROP 50 CENTS

Exchange Won't Raise Figures, Members Pay Premiums

PORTLAND, Sept. 21—(AP)—Butter premiums of 1/2 to 1c lb. are generally continued over the produce exchange price on the open market. Members of the exchange, while previously refusing to advance so-called official prices, have been paying the advance.

General trading in the egg market was steady locally for the week's opening. Receipts are holding practically steady, with a slight increase of pullet stocks in spots. No change in the price list.

In general there continues a very well maintained tone and price in the market for cheese. Not only are conditions favorable at Pacific slope points, but in the east there remains a very good situation.

For the week's opening there was practically no change in the price of country killed meats in general. Top veal and lamb are especially firmer. Hogs appear about steady.

Green Corn and Prunes Are Virtually off Market Here

Monday introduced comparatively few changes in local markets, with most commodities holding steady at weekend figures. Hogs dropped 50 cents a hundred, to an even \$6. Lamb remained at the \$4 to \$5 range. Grains, butterfat and eggs were reported unchanged.

Green corn and prunes are virtually off the market. Other vegetables and fruits remained the same, except local cantaloupes for which the grower is now getting two cents a pound, and ground cherries, for which the new figure is up 10 cents to a dollar a lug.
