WHEAT HIGHEST IN WEEKS HERE EGGS FIRM AT RECENT ADVANCE

Tomatoes Scarcer and Growers Demanding 60 Cents Bushel

The last day of the week saw little change in market standings here. Hogs remained unchanged at six cents on tops, wheat went up another half cent to highest level in weeks of 42 cents on white and 40 cents on western red. A cent raise was recorded the previous day.

Poultry and milk products remained unchanged, as also did eggs. Tomatoes are becoming scarcer, and as a result the price is up slightly, growers now getting 50 cents at the stores. Growers are demanding around 60 cents a bushel at the various farmers' markets, showing as high as a 15-cent raise since the first of the week.

Butter and Butterfat In Good Demand, no Rise is Expected

PORTLAND, Sept. 26.—(AP)—Demand for butter is a firm tone in the local market for eggs. The advance of 1c for extras, pullets and 2c for mediums by the Pacific co-ops set the pace here for a higher range.

Advance in the price of butter is not generally expected by the trade, but very considerable strength is reported in the price situation.

Demand for butter at the moment is fully sufficient, if not more, to take care of every pound of stock available. The country is beginning to show a shortage and some distributors there have recently been forced to purchase in the city to fill their Portland trade's wants.

Butterfat values are firmly held. All through the check trade there is a very good demand along the wholesale way. Prices continue more or less in line with those ruling early in the week.
