

FEAR HELD CAUSE OF STOCK SELLING

Prices Thrust Downward by Liquidation, Nothing Seen to Warrant

By JOHN L. COOLEY. NEW YORK, Oct. 5.—(AP)—Stocks were thrust sharply downward today under liquidation that seemed to be prompted much more by fear than by act. Rumors circulated widely. The news, aside from the reported suspension of a Montreal investment firm, contained nothing that threw any unexpected light on the world's troubles. There was undoubtedly large foreign selling here, but domestic liquidators contributed their own offerings of the country's most prominent equity securities. Net losses in a number of such stocks ran to half a dozen points, with rail and utilities making the poorest showing. The average decline was 4.4 points, bringing the composite down to 70. Sales of \$1,192,650 shares were smaller than some of last week's totals. Only Four Active Stocks Above Par

At the close only four active common stocks—American Telephone, Detroit Edison, Norfolk & Western and People's Gas—were selling above 100. Union Pacific, Atchafalaya and Central of New Jersey parted company with the "hundred club," while New York Central broke below 50 and United States Steel closed at 62 1/2, the day's low, off 6 1/2. Telephone sold at 121 1/2, the lowest in 7 years, and, in fact, the lowest for Union Pacific at 93 1/2 net. Necessary to go back to 1924 to find a lower quotation. Its loss was 6 1/2. Norfolk & Western lost 9, Southern Pacific and New York Central 5 1/2 and Atchafalaya 5 1/2.

In the industrial and specialty divisions, American Can, American Tobacco "B," Eastman, Case, Johns-Manville, Du Pont, Woolworth and Public Service of New Jersey were off 3 to 6. North America dropped 6 net and Auburn and Ingersoll Rand 10. Brokerage houses stress the fact that the share market's decline is orderly. There are many reports of investment buying, but all such orders, it appears, are being placed at a scale-down.

Persistent Unsettlement of Stocks is Chief Factor

CHICAGO, Oct. 5.—(AP)—New low price records for all future deliveries of wheat resulted today from stop loss selling associated with persistent unsettlement of securities. All the corn, oats and rye futures simultaneously broke the season's previous bottom quotations. Liquidating sales were the order of the day, holders continually throwing wheat and other grains overboard with the crumbling of stock values the paramount influence, reducing grain market buying power to a minimum. Wheat closed nervous 1/2 to 1 1/2c lower, corn 1/4 to 1/2c down, oats 1/2 to 1/2c off.

LEVITY TOOK A BACK SEAT

MAHATMA GANDHI CHARLIE CHAPLIN

One cannot readily reconcile the temperament of Mahatma Gandhi, India's great spiritual leader who has aroused the sympathy of the world with his indomitable fight for his country, with that of Charlie Chaplin, screen comedian, who has devoted his life to making people laugh. But when they met recently in London their interview was not marked by any of the absurdities that one would expect to arise in a debate between a prophet and a clown. On the contrary, the two men so widely different discussed the virtues and evils of the machine age against the gods of gods and gears.
