Effect of Rate Ruling. Noted Early

By JOHN L. COOLEY NEW YORK, Oct. 21-(AP)-Although the action of railroad stocks today could only be construed as an expression of disappointment over the freight rate decision, other sections of the financial markets appeared more

All stocks were off in the early dealings when rail shares tumbled thern Hemisphere wheat produc-2 to 8 points, but utilities rallied vigorously in the afternoon and industrials reduced or eliminated their losses. Except fer the rails which closed some 2 to 5 off, final prices represented largely fractional changes in leading issues. The turnover was 2,248,640 shares.

The market was in no hurry about selling the railroad stocks for the early dealings in them were slow, although prices weakened decisively. Wall street, acting on a wrong steer had bought the earriers yesterday. Declines elsewhere fitted into a 1 to 3 points range.

Equities of the stronger roads, which would be asked to pool the income from higher freight rates for the benefit of the weaker, showed the widest losses. Union Pacific and New York Centralwere down more than 4 net. Atchison 5%, Norfolk and Western, Baltimore and Ohio and Pennsylvania 3 or more and Delaware and Hudson 61/4.

The net advance in utilities was fractional on the average, while industrials finished irregularly lower. International Telehone and American and Foreign Power stood out as strong spots; consolidated gas, American Telephone and North American were others, although they did not hold up so well. U. S. Steel off 3 points as the worst, cut its loss to 1%. Bthelehem and American Can finished a point lower. General Motors, Westinghous, Chrysler, Case, Radio, Anaconda and Kennecott were down slightly.

PORTLAND, Oct. 21-(AP)-More active demand for cauliflower was reflected during today's session of the East Side Farmers' Wholesale market. Greater rail were made steady to a fraction

continued in active movement with prices firm. Spinach was also a fraction improved in demand; likewise in Limited offerings of pickling

cucumbers found a good call around 25 cents per box. Cabbage market was quiet but considered steady at 80c to 80c per crate. Red mostly 75c can-

taloupe crate, Rutabagas and parsnips were steady around 40c per lug. Shell Ifma beans were 50 per pound.

Green broccoli ruled mostly 25c per lug. Concord grapes were 50 to 600

Peppers were 50c orange box for green and 40c peach box for Dry onions were slow at a max-

imum of \$2 for firsts with bailers There continues a very dull tone for apples.

Utilities Rally After bad Rallying Power Shown By Stocks Helps Grains Also

> CHICAGO, Oct. 21-(AP)-Broadening of North American wheat export demand together with rallying power shown by the stock market led to lively late upturns in grain values today.

It was estimated that 1,000,000 bushels of United States hard winter wheat had been purchased today for overseas. A shortage of 100,000,000 bushels in 1931 Nortion as compared with 1930, exclusive of Russia and China, was indicated by official reports, with the Russian crop also smaller despite increased acreage.

-The mystery of the recent advance in the price of undergrade cube butter on the Portland pro-

duce exchange while top score was unchanged, continues to st-tract attention in the trade here, the Journal said today. Reports of what caused the advance are varied but the one chiefly told is that at a formal meeting of a brokerage firm and a distributive body, it was agreed to advance the price on undergrades le in the hope of forcing some nearby creameries to advance their quetations to chain stores and other Claim is made in the trade that

chain stores are actually buying butter from some of the nearby country creameries at prices that are more than what cubes can be sold for on the open market. On the open market trade con-

ditions continue quite firm with prices well maintained. Butterfat advance is becoming more general; in fact at some points in the country higher prices than Portland delivery are being paid despite the fact that the fat

is for Portland churning. Market for oggs continues to gain strength but considerable of the late advances in some markets of the country is reported due to speculative interest forcing fresh eggs to an artificial height to grab greater profits on storage. Local co-ops named an advance of 1e for standards and mediums. Quite keen demand is showing

with the greatest call for medium and heavy weight stuff. Prices are firm to higher. Lights are unchanged. Springer stuff is weak. There is a very good and unfilled call for dressed young tom turkeys but old hens and old toms are inclined to show more or less duliness and even weakness. The country appears willing to sell.

for heas in the live chicken trade

There is a somewhat better feeling in the market for country killed calves with more sales at lambs are firm.
