

# WOMAN HURT WHEN MARQUESE TOPPLES

## Heavy Structure at Light Company Office Falls When Repair Made

Wednesday afternoon the heavy marquee in front of the Stoutloff building on North Liberty street, occupied by the Portland General Electric company, crashed to the walk below pinning a pedestrian, Miss Loretta Lashway, 655 Center street, against the building front. She was rescued and found to be only slightly injured. The glass into which she was thrust cut gashes on her head, thigh and foot. She was given prompt medical attention and removed to her home where she is recovering from the shock. The entire front of plate glass was broken out.

The marquee, which is 50 feet long, was being repaired by Andy Baker of the Salem Iron Works. Baker, who was on top of the marquee came down on it, but fortunately landed on the concrete without injury to himself.

Chains held by hooks in the wall were used to support the frame of the marquee, which with its metal covering, is quite heavy. Tuesday two of the chains broke. The owners of the building engaged the Salem Iron Works to repair it, and they went to work Wednesday. A jack was put under the portion which was sagging and Baker had just finished tightening the chains which had hooked up when the whole marquee crashed.

Fortunately there was only one person under it, Miss Lashway. She was near the south end and close to the building and was pushed through the front where the glass had been knocked out. E. R. Smith, merchandise sales manager, had just passed under the marquee and was in the entry, escaping injury. The large plate glass windows were shattered, and even the glass of the sides of the entry way.

Employees quickly cleaned up the glass. Trucks pulled the marquee to the edge of the walk to permit passing; and carpenters boarded up the front pending installation of new glass.

# New Departure In Art Classes Tried Out Here

To study the new creative art work being taught in Salem schools this year, 55 grade instructors met at the high school yesterday afternoon for the fourth of the eight classes being given by Mrs. Ida M. Andrews, head of the art department and instructor at Leslie junior high school.

Mrs. Andrews this year is undertaking to supplant the old dogmatic method of teaching art, giving the pupils set projects to follow, with the new scheme of allowing the children to express themselves freely in their art studies, doing whatever creative work they wish. With this aim in view, she is training the members of her department along this new line of instruction.

The art work, done by the teachers themselves as well as by the pupils, consists chiefly of water coloring, although crayon and calcimine also are used.

# Parent-Teacher Group Helps in Holding Clinic

With the assistance for the first time of the health committee of the Brooks Parent-Teacher association, members of the county health department yesterday examined 77 school children there.

Mrs. Mary McCloud Ashbaugh, who has charge of the Brooks clinic center for the association, yesterday was assisted by Mrs. Lillian Rasmussen, Mrs. Madge Jones, Mrs. Fay Loomis, Mrs. Adolphine Harris, Mrs. Helen Sargent and Mrs. Marie Bush, of the Parent-Teacher health committee. Sixty defects were found in the children, as follows: Improper nutrition 17, teeth 35, thyroid 4, skin 2, ears 2, heart 1 and flat feet 1. Fifteen parents were present to view the examination procedure.

Initial toxoid treatments for diphtheria immunization were administered to 20 of the children.

Tonight at Warner Bros. Elsinore will be presented the first studio preview to be given outside of Los Angeles. What the name of the picture is Manager Rice does not know but it will be shown between the first and second show tonight and you may judge for yourself whether it is a good show and find out what the name of it is.

This unique favor to Salem was gained by Mr. Rice about two weeks ago after some lengthy conference with studio officials.

Word has come from Los Angeles that Mose Silver, whom many people here met here in Salem while he was here on business, has been transferred from the Los Angeles office of Warner Bros. to New York city. Frank Newman will take his place.

It has also been rumored that Marty Schwartz, former manager of Warner Bros. theatres in Salem will perhaps be sent to New York with Mr. Silver. New York is the home of Mr. Schwartz and this change would be another happy break for Marty.

The second offering of Manager Ray Stumbo's wild west serial will go on again Friday. This is a real "western" and is arousing much interest.

# Added Light at City Library is Being Installed

The darkness which has lurked between book stacks at the public library soon will be made light, with the installation of six new electric fixtures. The present lighting system recently was made more adequate by the addition of several new stacks to the south wing of the library.

To make room for the many new children's books which have been added to the library collection within the past few months, a number of new stacks for the junior department have been ordered and will soon be put in place. At present the fairy tales and other books of delight to the children are scattered wherever a bit of extra space can be found.

# Hubbard Savings Depositors Paid

Checks being issued this week by the state banking department will bring payments on savings deposits in the closed state bank of Hubbard to 40 per cent. A. A. Schramm, state bank superintendent, announced yesterday. This dividend, the third to be issued, will total \$5007. Judge Gale S. Hill signed the order for the distribution yesterday. Savings deposits totalled \$40,087.

# THIRTEEN DEATHS IN AUTO CRASHES

Thirteen deaths and 485 injuries to passengers and drivers resulted from automobile accidents in Oregon in September according to a report released yesterday by Charles Pray, superintendent of state police. Pray reported 41 general arrests during the month and 163 arrests for traffic violations.

Arrests by members of the state police force brought fines of \$23,113 in general law violations and \$4,254 in traffic violations. Seventy-seven years imprisonment also resulted from the more serious offenses. Of the total cases 113 are still pending, while 15 acquittals were returned, the report shows.

Fatalities in automobile accidents were due largely to collisions, Pray said. Seven deaths resulted from crashes between cars, three from automobiles striking pedestrians, one from an automobile-hybrid collision and two from non-collision accidents. Cars parked on streets and highways caused the greatest number of accidents, 507, Pray reported. Failure to give right of way resulted in 407 accidents, left turns at corners and off highways contributed 396 accidents, exceeding the speed limit, 288 accidents and driving on the wrong side of the road, 297.

Of the arrests reported in general law enforcement during the second month's operation by the state police, seven were for aggravated assaults, resulting in sentences of 39 years. Liquor law violations led all the rest with 139 arrests, bringing offenders 21 years imprisonment and assessed fines of \$15,000. There were seven burglary and four robbery arrests, and the police superintendent reported three homicides. Violations of fish and game laws resulted in 122 arrests.

# COUPLE OBSERVES 50TH ANNIVERSARY

**TURNER, Oct. 28**—Mr. and Mrs. Charles L. Standley celebrated their golden wedding anniversary Tuesday, October 27, with a family dinner at their home.

Charles L. Standley and Miss Ella Button were married October 27, 1881, at Cortland, Ohio, where they lived two years, then moving to Michigan for 20 years where their four sons were born. They lived 13 years in North Dakota before coming to Oregon 10 years ago.

They have four sons, the oldest one, Glenn, with his wife and six children arrived two months ago from Jordan, Montana, and are at present at the home and are helping care for Mrs. Standley who has been an invalid for almost a year. Mr. and Mrs. George Standley and three small children live in Salem; Mr. and Mrs. Charles F. Standley and young daughter of Turner, and Earl who lives with his parents.

Mr. and Mrs. Standley were recipients of many gifts from friends who called during the day, all wishing for Mr. and Mrs. Standley many more happy anniversaries.

# FACULTY AT W. U. PLANS LOAN FUND

(Continued from page 1)  
of the faculty members has been supporting two other families besides his own.

It was felt that the need of the students at this time was not taken care of by other means and that the faculty could render a genuine service by starting a revolving fund which will doubtless be enlarged by other contributors.

President Carl G. Doney and Dean Erickson will administer the loans while Savage will be in charge of the money.

# Hawley Makes Portland Visit

Congressman W. C. Hawley will spend Thursday and Friday in Portland where he will be at the Multnomah hotel.

He will be a member of several conferences at the Multnomah during the two days.

# RAIN STOPS, ROAD WORK IS RESUMED

Road work in the county, which was shut off for a few days because of the rain, was resumed Wednesday. Four trucks were sent out by Roadmaster Frank Johnson to speed up the work of paving at Mt. Angel and the gravel hauling on the Abiqua road. The crew is expected to finish the Mt. Angel paving this week and then will go on to pave the Bethany corner at the junction of the Mt. Angel and Silverton pavements.

In spite of the rains the crew at work in paving the last mile of the Abiqua road kept right on working. Johnson stated that the gravel in this subgrade was of such quality that it held up the trucks even when the road was very wet.

After looking over the roads in district 31, Johnson and Commissioner Porter sent lumber there for use in bridge repair work in that district, and also ordered gravel placed on the roads from the Marion crusher. Except for these odd jobs most of the road work for this season is completed.

# CREDIT MANAGERS TO CONVENE HERE

Subject to the approval of the annual Northwest credit bureau association manager in Portland in May, managers from all over the northwest will join with the state association in the convention to be held in Salem next fall. Roy

# WASSAM REPORTED AT MEETING OF THE SALEM HOTEL CREDIT ASSOCIATION AT THE GRAY HOTEL YESTERDAY MORNING

Wassam brought this information following attendance at the recent meeting of bureau managers held in Seattle. He gave a report of the Seattle meeting, and told about operation of the bureau in the Washington metropolitan area where 42 employees took after the interests of the credit members.

Wassam also reported a quick piece of the work loan bureau did last week in contacting the Chicago association for information.
