

ARMISTICE DAY PLANS FINISHED

Woodburn Legion Post Sponsors Carnival; Promises big affair

WOODBURN, Nov. 5.—Plans for the Armistice day carnival, to be held in Woodburn November 11, are rapidly being whipped into shape by members of the local American Legion post, which is sponsoring the affair.

Along with the plans of the Legionnaires, the women of the local auxiliary are completing plans for the big dinner that organization will put on Armistice day at the armory. Contrary to earlier reports, stating that the dinner will be held in the evening, the women plan to serve the dinner in the armory beginning at noon and lasting until everything is gone.

Mrs. Margaret Whitman is head of the dining room committee and Mrs. Winona Coleman is chairman of the kitchen organization.

The parade, which will start at about 11 p. m., will feature many organizations of neighboring towns, as well as Woodburn. Entries representing various organizations in Hubbard and Gervais will be in the parade. Led by the 186th infantry band from Portland, the parade will be an interesting spectacle. Organizations which have signified intention to enter are the Woodburn horticulture company, the American Legion and women's auxiliary, the Women's Relief corps, the Spanish-American war veterans, the Hubbard Girl Scouts, the Junior Red Cross, the boys' school patrol, the Boy Scouts and the fire department.

The Hubbard community band, a well-known organization, will also lend much color to the parade. The parade will assemble at 10:30 and be in motion by 11 o'clock.

First Lieutenant Percival M. Blenkinsop, chaplain of the 186th infantry, has been obtained as a speaker of the day. He will make his speech at the armory immediately after the parade.

The Oregon City rifle company, a national guard unit, had agreed to be present Armistice day, but a celebration in Oregon City will make it necessary for the company to remain at home.

The biggest feature of the afternoon will be the benefit football game between Woodburn high school's team and the McMinnville high school team. Both teams have good records so far this season, and a hard-fought game is expected.

An orchestra of good reputation for its pep and fine music has been obtained for the dance to be held in the armory at night.

GETTING THE SACK!

School boys of Lower California must consider games like football much too effeminate. They risk their lives in a game of their own invention called "getting the sack," a game which demands the greatest equestrian skill and daring. This unusually messy photo shows one of the sensational players leaping from his racing mount at a precarious angle to get the sack during one of the exciting competitions staged at Ojai, California.

Gest had fled Russia for America when a lot of sine because his early dislike of the czarist regime had taken the form of thumbing his nose at a picture of the Emperor which adorned the wall of his schoolroom. Today, a successful theatre magnate, Mr. Gest lives and works in rooms furnished entirely with pieces that were once the pride of the imperial Romanoffs. Pictures show Mr. Gest in his study and several fine pieces of the goldsmith's art that were the property of the late Czar Nicholas. Makers of Vicks VapoRub Announce a New Plan for Home-Control of Colds

News Comes With Development of a New Product; A Unique Companion to the Famous Treatment, Based on a New Idea for Prevention of Colds.

Makes Possible a Further Reduction of the Family "Colds-Tax" This Winter In Time, Money, Health.

A quarter century ago, Vicks VapoRub introduced the modern external method of treating colds. Now Vicks Nose & Throat Drops — latest development by the Vicks chemists — introduce a new idea in preventing colds. Together, these perfect allies make possible the new Vicks Plan for better "Control of Colds" and reduction of the family "Colds-Tax" in time, money and health.

Here is the Vicks Plan of Control: 1.—BEFORE a Cold Starts.

On exposure to colds or to any of the causes that ordinarily lead to colds—(crowded indoor places—stuffy, poorly ventilated rooms—sudden temperature changes—wet and cold, etc., etc.)—that slow down the normal functioning of the nose, Nature's marvelous "first line of defense against colds"—use Vicks Drops promptly. Or, if a cold actually threat-

ens—at that first stuffy, sneezy irritation of the nasal passages—a few drops up each nostril, and many annoying colds will be avoided.

2.—AFTER a Cold Starts. At night, rub Vicks VapoRub well over throat and chest and cover with warm flannel. Leave bed-clothing loose around the neck so the medicated vapors can be inhaled all night long. During the day—any time or place—use the convenient Vicks Drops as often as needed. This gives you full 24-hour treatment. (If there is a cough, you will like the new Vicks Cough Drops—medicated with ingredients of Vicks VapoRub.)

3.—OFFER to Vicks Users. The makers want every user of Vicks VapoRub to try Vicks Nose Drops. Free trial samples of the Nose Drops were sent every druggist in the United States—but if you failed to get yours, buy a bottle today and try out the Vicks Plan for better Home-Control of Colds as directed. If you are not delighted with results, your druggist is authorized to refund your money without question.
