**Student Loans Numerous**—The newly created faculty student loan fund of \$500 at Willamette university has made it possible for a number of students to remain in school who would otherwise have had to drop. Thursday was the day when all tuition had to be paid and practically all of the student loan funds and scholarship funds were entirely taken. In every instance thorough investigation was made before loans were granted. It is feared that with the amount loaned, some of the students might not be able to raise enough money to meet the tuition charge in which case they will be forced to drop school.

## COMPENSATION LAW VIOLATION ALLEGED

### Employment of Lawyers by Accident Commission Claimed Illegal

Charges that the workmen's compensation act is being violated by the industrial accident commission, are contained in an injunction suit filed in the Marion county circuit court Friday by M. E. Watts of Portland. The suit asks that members of the accident commission, state treasurer and secretary of state be enjoined from authorizing drawing or paying warrants against the accident fund in favor of any one of three attorneys whom Watts alleges are employed by the commission to oppose legal actions launched by injured workmen and their dependents.

Watts is president of the hoisting and portable engineers local union, No. 701, of Portland. Attorneys named as codefendants are:

**Many Take Typing**—Twenty-four young persons yesterday attended the second of the typewriting classes offered at the high school on the Opportunity school program. The classes are for those persons who are unable to attend regular school but desire to learn to operate the typewriter or improve their present use.

**Assembly Yave One**—Students of the high school held a live assembly yesterday during the activity period. The program included stunts by initiates of Snifpook club, a skit from the senior class vaudeville which will be presented tonight, music by the boys' quartet and the girls' chorus, and a pep rally.

**Hudkins Convalescing**—Ronald Hudkins, student body president at the senior high school last year, who Monday underwent an operation for appendicitis, is recovering satisfactorily and will be able to resume his studies on Sunday. He is at the Salem General hospital.

**Umino Estate in Probate**—The \$3000 estate of Tomokichi Umino has been admitted to probate, with Teitomu Miyao as administrator. D. R. Hill, C. T. Haseman and F. R. Olin are named appraisers.

dapts with the state officials, include William B. Hare of Hillsboro, Glenn R. Metzker of St. Helens and J. A. Barrick of Tillamook. The complaint also asks that these attorneys be restrained from accepting payment for their services from the state accident fund.

**No Authority for Employing Lawyers**

Watts alleged in his complaint that the compensation act provides specifically that the attorney general shall be the legal adviser of the accident commission, and that upon request of the accident commission the district attorney of any county shall defend the said commission in suits filed by injured workmen or their beneficiaries.

Further charge was made by Watts that there is no provision of law authorizing the employment of other attorneys by the commission. Watts alleged that the payment of such attorneys, not authorized by law, is an illegal diversion of the funds of the commission.

Arthur Lawrence, members of the industrial accident commission, admitted that the three attorneys mentioned in the complaint had defended suits against the commission. He alleged, however, that the attorneys were employed by the attorney general and not by the industrial accident commission funds.

Hare is representing the commission in the case of E. A. Elford of Hillsboro, deceased; Metzker the injury case of P. M. Matheson of St. Helens and Barrick the injury case of Claude L. Shrader of Tillamook.

State officials declared that they had not been served with papers in the case late Thursday afternoon.

## HEARING IN BYERS APPEAL POSTPONED

Hearing of the appeal of David L. Byers, principal of the Sutherland schools, whose certificates to teach in Oregon were revoked recently by C. A. Howard, state superintendent of schools, has been continued indefinitely.

Postponement of the hearing which had been set for today was necessary because of the demand for a full representation of the state board of education. Governor Meier, chairman of the board, is in Gearhart and probably will not return to Salem for a week or 10 days.

Byers was charged with being too friendly with some of his women teachers.

Charges against Byers were filed by Miss Edith Ackert, Douglas county superintendent of schools. Four teachers testified against Byers at the time of the original hearing held in Salem.

## COUNTY PLANNING EMERGENCY WORK

Emergency road work is planned by the county to start soon and some state highway work is in prospect in the future.

The right of way will be cleared by the county from the Mission bottom market road to the Hopmere market road. Much of this is new survey and considerable clearing and burning will be required. The job will be under Bob Cole and work will be given to some of the most needy who are registered for employment.

District Engineer Collier plans to confer with Roy Klein, highway engineer, as to what emergency work on the state highways can be expected and just when it will begin. In the near future some men are expected to be placed on some work at Jefferson, Collier stated, but how many men would be employed or the exact date of the opening of the work were not known.

## ASKS FORECLOSURE AGAINST HAMBLETT

Foreclosure of a lien held against wood is sought by James Cannon in a suit filed in circuit court here against E. S. Hamblett and the Union Central Life Insurance company. Cannon also sought, and has been granted, restraining order prohibiting the defendants from moving or selling the wood in question pending outcome of his suit.

Cannon says he has duly executed lien to cover a balance of \$37.45 due for felling trees and cutting the wood into four-foot lengths. The wood is on the Hamblett place near Broadacre. Cannon asks foreclosure and that his lien be declared a prior one to claim of the life insurance company.

## Scio Residents Seek to Retain Espee Station

SCIO, Nov. 5—A mass meeting is scheduled for the city hall Friday night, November 6 at 7:30 o'clock, at which time two questions will be settled: first, whether or not the Southern Pacific depot and telegraph and express office at West Scio shall remain open; and second, whether or not the express office at Scio remains open.

Officials of the Southern Pacific company will present facts and figures relative to the operation of the offices. All Scio citizens are urged to attend, as effort will be made to induce the officials to keep the service for the town.

Word was received in Salem of the death yesterday afternoon of D. M. John of Corvallis. Mr. John was a well known insurance man in the Willamette valley. He had suffered from heart trouble for years. A widow survives, also a son, D. M. John, Jr., of Stayton, and a daughter, Mrs. Harrison Smith of Oakland, Cal.

A total of 190 miles of local roads in Virginia were surfaced during 1930.
