

ANNUAL THANKS FEAST PLANNED

Island Improvement Club
Opens Winter Season
With Busy Session

GRAND ISLAND, Nov. 18.—The Grand Island Improvement club held the first meeting of the winter season at the school house Saturday night. A brief business meeting was conducted by the president, Adelbert Smith. The club voted to dispense with the regular custom of drawing names for the community Christmas tree this year. However, a program will be given and the school children will draw names and enjoy the community tree as usual.

Residence of the district will sponsor the annual Thanksgiving feast to be held at the school house on that date. Everyone who does not have other engagements and desires to participate in the affair is invited to come with basket dinner and join in the Thanksgiving spirit.

Following the business session, a varied program consisting of musical numbers and a two-act play, "Rose of the Rovers," was presented by the school children under the direction of the two teachers, Mrs. Pauline Fowler and Miss Zoe Easterly.

The next meeting of the club will be held December 12. The program will be in charge of the literary chairman, Mrs. Mildred Smith, assisted by Miss Charles Ferguson and Morton Tompkins.

Mrs. Rockhill III

Two years ago he met with a similar experience with a passenger train. So far, little hopes are held for his recovery.

DEFIES KING

Prince Nicholas (above), second son of the Dowager Queen Marie of Rumania, defied his brother, King Carol, when he sped away from Budapest to a small village and compelled the mayor to marry him to Mme. Jana Lucia Delet, a divorced beauty not of noble birth. King Carol, on hearing of his brother's defiance and marriage, ordered that all records of the marriage be destroyed and officially denied the wedding.

A. F. OF L.'S 50 YEARS IS PROUD RECORD

Although cartoonist John Baer has Uncle Sam calling the A. F. of L. "just a kid" in his drawing commemorating the Federation's 50th birthday, that organization can point with pride to a phenomenal growth since its creation in 1881 at Pittsburgh. Under the leadership of the late Samuel Gompers and President William Green, present head of the organization, the Federation has grown to a membership of close to three million members. Among the blessings it has brought to the American worker are the eight-hour day and a standard of living unequalled in any other country in the world. One of its greatest achievements was the wiping out of child labor. There are now only two States in the Union where the minimum age for a worker is under 14. Of the five men who originally organized the Federation, only one is now living. He is Charles F. Burghman, of Daytona Beach, Fla. Mr. Burghman is 75 years old and has watched the organization he helped create grow into the powerful machine it is today.

New "Colds-Control" Plan Is Welcomed by Mothers

Plan Introduced by Makers of Vicks VapoRub to Reduce the Family "Colds-Tax" Is Made Possible by a New Preparation.

Local Druggists Offer a Test of The New Product and Plan to VapoRub Users on Unlimited Guarantee of Satisfactory Results.

Mothers are constantly faced with the problem of colds and their costs. It is the mothers, therefore, who especially appreciate the Vicks Plan for better "Control-of-Colds" in the home—just perfected by the makers of Vicks VapoRub.

The Vicks Plan is made possible by a new preparation, Vicks Nose and Throat Drops, based on a new idea in "preventing" colds. It is a companion product to VapoRub, the modern external method of "treating" colds. The two preparations aid and supplement each other. Together, as directed below, they give you the Vicks Plan for better "Control-of-Colds."

1.—Before a Cold Starts

Use Vicks Nose Drops—a few drops up each nostril—whenever you or your children have been exposed to anything which your own experience tells you is apt to bring on a cold—contact with others having fresh colds, crowded, stuffy ill-ventilated rooms, public places—a night on the Pullman or a dusty automobile ride—sudden changes in temperature, wet or cold—inhaling smoke, dust, gases—or when you are tired from overwork.

In short, don't wait for that

stuffy, sneezy irritation of the nasal passages—Nature's "warning" that you are actually "catching cold."

2.—After a Cold Starts
At night, massage the throat and chest well with Vicks VapoRub—now available in "stainless form," if you prefer. Spread on thick and cover with warm flannel. Leave the bed-clothing loose around the neck so that the medicated vapors arising may be inhaled freely all night long. During the day, use Vicks Nose Drops every few hours—any time, any place. This gives you full 24-hour treatment.

Ideal for Children
Both these Vicks products are external and hence can be used without the risk of too much "dosing." Internal "dosing" so often disturbs the digestion—especially the delicate digestions of children. This impairs the appetite, which, in turn, reduces body strength at a time when resistance to disease is most needed. Don't "dose" colds—especially children's colds—except on advice of your family physician.

Proof of this Plan is in its trial—in your own home. Get a bottle of Vicks Drops today. Keep it alongside your trusted Vicks VapoRub. Use them together as directed. Their better "Control-of-Colds" will be noted in fewer colds—colds of less severity and shorter duration. An actual saving to you in money, loss of time and health. Otherwise, the test will cost you nothing. For, unless results are more than satisfactory, your druggist will refund in full the price of the new Vicks Nose Drops.

Let's talk Straight from the Shoulder

WHAT you want in a cigarette is taste. You want mildness... smoothness...and satisfying pleasure when you smoke.

All right then... get this straight.

CHESTERFIELD pays top prices... yes, and a premium for the ripest, mellowest, sweetest-tasting leaf that grows.

The curing and conditioning is done by specialists... men carefully trained in handling these fine tobaccos.

IN BLENDING, also, Chesterfields are different.

Instead of merely mixing the tobaccos together... we cross-blend them. It's like making a new and better-tasting kind of tobacco. That's how we get that Chesterfield flavor. Milder...and a more pleasing aroma.

Cigarette paper? Only the purest that's made is good enough for Chesterfield.

PICK UP a package. Note its clean appearance... free from heavy inks. It's moisture-proof, too.

And three big factories at Richmond, Durham and San Francisco—

operating under the strictest sanitary standards—rush them fresh to you.

Good...they've got to be good. Because they're made that way. And most important of all...you can taste this goodness in the cigarette. You can tell it in the smoke.

Light up, Mister! Try Chesterfield.

Let the cigarette do its own talking.

You'll get the whole thrilling story, in just two words... "They Satisfy!"

"Yes Sir—Mild yet they Satisfy"
