He developed and sold several mines, his enterprises leading him into Montana, Wyoming, New Mexico and Old Mexico, Arizona, Nevada, Colorado and California.

Smart SHOPPING

"How good is it?"
That's it!

ABOUT anything and everything they buy, smart shoppers like to ask one question—"How good is it?"

Chesterfield welcomes smokers who buy their cigarettes that way.

OUR tobacco buyers are smart shoppers, too. They "shop" for the ripest, mildest, sweetest-tasting leaf that grows. And they won't take anything else.

"How good" are Chesterfields? Well, consider their blending.

Blended and cross-blended... not merely mixed together. Blended first by crops and countries... then cross-blended again and again... to produce a flavor and aroma that are Chesterfield's alone.

That's how we get that better taste... that's why Chesterfields are milder. Even the paper they're rolled in is the whitest, cleanest and purest that money can buy.

And the package... clean, bright, fresh-looking... see how easily it opens, yet how tightly it's sealed.

OPEN a package. Note the aroma... delicious foretaste of pleasure ahead.

Now—pull out a Chesterfield... round, firm, well-filled.

"HOW good is it?"—Light up... then you tell us!

Milder? Right! Taste better? You bet they do! They're pure, too—and they certainly do satisfy!

Good... they've got to be good! There's value here. We know, because we put it in... and you'll smoke it out with every one you light.

"Sure I shop for cigarettes—Chesterfields satisfy me"
