SWEET HOME, Dec. 7 .- Gradng on the Helley branch of the Oregon Electric railway extension is practically completed and the construction force is neld up new waiting for better weather to lay the remaining three miles of track. The grade has been finished into the margin of the Dollar timber holdings.

A force of 50 men is now employed by the Hauser Construction company, most of whom areemployed in taking care of sev-McKay's for Used Cars eral small slides that came down on the new grade as a result of the excessive rains of the past several weeks. The county road along the upper Callipoota is still blocked by the slide that fell several days ago. This did not much effect the ratiroad grade, but has made a serious obstable in the Commercial Club Has progress of the railroad work by making it necessary to transfer fuel oil and other supplies for its grading crews on the end of the grading work.

A number of local residents who had been employed on the work found it impossible to go from their homes to their work on account of the slide, and consequently have given up their jobs.

The Dollar Lumber company now has four timber cruisers working in its holdings, but has Buick and Studebaker Coupes 1938 done nothing in the way of actual models, both in good condition. Occurred work toward beginning logging McMinnville, Oregon.
