## Individual Concert Planned by Symphony

Two compositions never before heard in the northwest, as well as the favorite fifth symphony of Beethoven, are on the program for December 23 concert of the Portland symphony orchestra at the auditorium. William van Hoogstraten conducting.

The new works are "La Peri," by Dukas, and the Bach suite arranged for a modern orchestra by Max Reger. These two scores were bought last year in Europe, the Bach being obtained by Mr. van Hoogstraten himself.

Orchestral efforts of Bach are not as well known as his works for the piano or rather for the clavier and other predecessors of the piano—which was not invented until after Bach's death. He was famous also as an organist, and wrote much music for that instrument, and much of it has been arranged for modern orchestras by contemporary musicians.

"La Peri" has not been given before in Portland, others of his works are well known, especially "The Sorcerer's Apprentice," which was presented last season with notable success.

Beethoven's fifth symphony, so well known to Portland musical audiences count it as among their most favorite works. This will be the eighth time the symphony has been given by the orchestra, and it leads all other symphonies, and probably all other works, in the number of times it has been presented here.

The concert will start as usual at 8:30, and will be completed by about 10:30. Seat reservations for any symphony concert will be received at 920 Failing Building, Portland, Oregon.
