A frock that is distinctive because of its simplicity and elegant because of its fabric, is ideal for informal social events. Mothers adopt Vick "Colds-Control" Plan

Means Reduction of the Number, Severity and High Costs of the Family's Colds

Doubly welcome to mothers is news that the makers of Vicks VapoRub have perfected a Plan for better "Control-of-Colds"-to lessen the number and severity of colds and reduce their costs in money, lost time and health. The plan is introduced along with Vicks Nose & Throat Drops, based on a new idea for preventing colds - companion product to VapoRub, the modern, external method of treating colds.

HERE, BRIEFLY, IS THE VICK PLAN:

BEFORE a Cold Starts ? AFTER a Cold Starts

When children come in sniffling and sneezing, apply a few Vicks Drops up each nostril. Use the Drops yourself at that first scratchy, sneezy irritation of the nose or upper throat-Nature's warning that you are "catching cold." If you or the children catch cold easily, use the Drops after exposure to any condition you know is apt to be followed by a cold dry, over-heated rooms-indoor crowdssudden changes, wet or cold—dust and smoke etc., etc.—and there is the slightest stuffiness. Used in time, many colds can be avoided.

At night, massage the throat and chest well with Vicks VapoRub. Spread on thick and cover with warm flannel. Leave bed-clothing loose around the neck so that the medicated vapors arising can be inhaled all night long. During the day-any time, any place-use Vicks Drops as needed for ease and comfort. This gives you full 24-hour treatment-and without the risks of constant internal "dosing," so often upsetting to digestion, especially the delicate digestions of children.

TRIAL OFFER BY LOCAL DRUGGISTS

You have Vicks VapoRub-now get Vicks Nose Drops and use together as directed in the Vick Plan for better "Control-of-Colds"-to reduce their number and severity. Unless you are delighted with results, your druggist is authorized to refund your money.
